FAMILY and COMMUNITY RESOURCE PROGRAM

Program Logic Model for

Potosi Correctional Center (PCC)
Living Interactive Family Education Program (LIFE)

Program is managed by a UOE 4-H specialist with assistance from a part-time youth education assistant and an HD specialist. It is supported by PCC staff, community volunteers, and the incarcerated fathers. Program uses PCC facilities and 4-H curricula (e.g., Family Times).

The LIFE program offers 4-H activities to incarcerated men and their children, grandchildren, or other young family members. Children are also enrolled in their local 4-H club.

Fathers and children meet to work on 4-H activities

Fathers and children experience more satisfying visits

Fathers and children set and meet positive personal goals

Fathers learn organizational and leadership skills, screening new entrants to program

Fathers meet separately to plan 4-H activities

Fathers become a positive presence in children's lives

Children build character and skills through 4-H programs

Children experience the psychological benefits of parenting

Fathers become positive leaders and role models within PCC

Children's risk of incarceration is reduced

Children's self-esteem and social skills are improved

Children become better leaders and citizens

Stress levels are reduced for fathers and prison workers

Children's sense of isolation is reduced

Children stay in school longer

Children and fathers maintain long-term relationships

Recidivism is reduced
