

4-H is for You, For Me, For Fun, For Life

4-H is for you and your whole family because you can meet new people and have fun doing it. The younger kids can be in Clover Kids, school age kids can be in 4-H and grown-ups can be helpers.

4-H is for me as well, because I can put stuff that I made in the county fair and I look forward to going to our club meetings and getting to see my friends.

4-H is also for fun, because you can do all sorts of crafts and you can go to classes. Some of them are vet science, cake decorating, arts and crafts and many others.

4-H is also for life because it helps you make good friends and you can learn new things, do fun activities and if you really like 4-H, you could become a leader or a judge when you are older. You can learn good communication skills and help your community and that will lead to being a better citizen.
