

4-H just keeps getting better every year. I finally have gotten old enough to do more things, which means more fun! 4-H is a way to help me become stronger in presenting which will help in my future. This year's speaking and presenting has helped me speak in front of crowds easier and better.

4-H is for anyone, because there is something for all ages. 4-H will help my life in how well I will present to others and what I will do in my future.

4-H is fun, just because you have fun, hanging out with other people or doing a fun project. Doing community service makes you feel good, like making a blanket for single moms in need or working at Harvester's for the hungry. I love to work on projects to take to the fair, and it is exciting to see what ribbon you got. When I go to the Recognition Event I feel good about all the things I did over the year and that I am getting rewards for doing so much. I remember that I would enjoy the teen helper and am glad that I can be the one they can look up to now. 4-H is just a lot of fun with many opportunities for you.
