Missouri Master Naturalist

Lake of the Ozarks

Spring 2019 Training...

Participants receive natural resource based training from natural resource experts on topics including:

- The Role of Naturalists
- Ecological Concepts
- Soils and Geology
- Forest Ecology
- Wildlife Management
- Aquatic Ecology
- Grasslands and Woodlands
- Birds, Insects & Mammals
- MO Wildflowers & Native Plants
- Caves and Karst
- And much more!

During and after training participants have the opportunity to assist with conservation service projects in their local area.
