INDEX TO CONSIGNORS

BULL FRAME (Hip Height)

Frame	1	2	3	4	5	6	7
Finish Weight	750-850	851-950	1051-1150	1151-1250	1251-1350	1251-1350	1351 & up

Frame number 1 steers are the smallest feeders available in the U.S. cattle population, and Frame number 7 steers are the largest. They are expected to weigh within the limits indicated in the chart above at 14 1/2 to 15 months of age. Eighty percent or more are expected to grade Choice under the feeding system used by the commercial feed lots (140 to 200 days on feed.)

	AGE IN MONTHS

*Frame 3 is average for British breeds.

**Frame 5 is average of Continental breeds.

The base point is 45 inches hip height at 12 months of age for a Frame Score of 3.

Allow two inches for each frame score at the same age. Allow one inch per month from 5-12 months of age, allow 0.75, 0.50 inches per month from 12 to 18 months.

Daily adjustment may be made as follows:

(No. of days under 365) x .033 ÷ actual height = adjusted height. For adjustments from 365 to 440 days: actual height - (No. of days over 365) x .025 = adjusted height.

Adjustment of 205 days when weights are taken between 160 & 250 days on bull calves is .03, and on heifers is .025.

WELCOME TO OUR 69TH SEMI ANNUAL PERFORMANCE TESTED ALL BREED BULL SALE

We are grateful for your interest in our bulls. We have 9 purebred producers consigning these bulls. These producers are cooperating with area extension livestock specialists in improving and developing their herds. The quality of this sale runs real deep. We will again furnish you all of the information available to us, plus current weights, heights, and scrotal measurements. We will have a soundness score, and visual appraisal by area extension livestock specialists, from area University Extension offices. The EPDs are current.

If anytime we can assist you in any way contact me or any area Extension Livestock Specialist.

Thanks again for attending.
Darrell Aufdenberg
Sale Manager

If you are looking for a bull that would fit in your beef cattle program and increase the quality of your calves you can find him here in this sale.

REQUIRED PERFORMANCE AND CONFIRMATION INFORMATION:

- A. The bulls eligible for the 2011 Fall Sale must have been born September 1, 2009 to October 15, 2010.
- B. The bull's yearling weight must be taken at 350 to 440 days of age and adjusted to 1100 pounds or more at 365 days. He must grade B- or better. He must be 49 inches high at 1 year of age. Must be in Top 50 Percentile for any 2 out of 5 EPD Traits - CE or BW EPD, Weaning Wt. EPD, Yearling Wt. EPD, Milk EPD and Marbling EPD.
- C. The most important grade these bulls have met are - Grade B- or above; yearling height 49 in.; weight at a year, 1100 lbs. or above; semen tested and examined for breeding soundness and found to be satisfactory potential breeders.
- All weaning weights and 365 weights are calculated by the breed associations and must be registered in their respective association.
- Age of dam adjustment factor used is from the breed association. Bulls selling will be in breeding condition. They have been vaccinated for Leptospirosis and semen tested.
- D. If the bull has been used or in service prior to the sale, this will be announced on the auction block.
- E. Bulls to be eligible for the sale will have to be owned as a cow-calf unit prior to the time the calf is 120 days of age. Exceptions to this rule, in partnership cattle will be determined by the sale committee.
- F. All bulls must be examined for breeding soundness by a veterinarian within 90 days of sale, using standard assay analysis of semen approved by the School of Veterinary Medicine, University of Missouri. All bulls must be free of obvious defects of confirmation unsoundness.
- G. Health certificates. A complete general physical examination of the bull by a veterinarian is required and vaccination for all five strains of Leptospirosis within 30 days of sale. All bulls must have semen test and scrotum minimum of 33 cm. Yearling bulls must be 32 cm.

Farm Goals: We are breeding Charolais cattle that are easy calving, grow fast with less feed and produce a superior carcass.

Footnotes: This bull represents 48 years of Windy Hill breeding. His dam goes back to the first cow & bull we purchased in 1963.

Maternal Milk (Milk or MM): Maternal milk EPDs are expressed in pounds. They are defined as a predictor of a sire to pass on milk and mothering ability to his offspring. It is part of the calf's weaning weight that it attributed to milk and mothering ability. It is extremely important that the level of milk you need in your herd must MATCH THE ENVIRONMENT (level of NUTRITION and MANAGEMENT). If your calves are light at weaning due to a lack of milk production in the cows then one might want to consider selecting a bull with a higher level of maternal milk. On the other hand if cows are thin and you have difficulty breeding females (especially first and second calf heifers) then one might want to select a moderate or lower maternal milk bull. Milk EPDs are ranked from the MOST (low percentile rank) to LEAST (high percentile rank), with neither of these being desirable for ALL situations.

It is also extremely important that there are differences between BREEDS. Therefore, 15% rank in one breed (for a trait) does not equate to the same number of pounds as a 15% rank in another breed. Also, when evaluating the EPDs in the Sale Catalog please keep in mind the AVERAGE EPDs for the various breeds. Do NOT COMPARE EPDs across breeds as they work from a different base. This is why we use EPD Percentile Rankings so you know where a bull falls within their breed from the various traits.

TERMS AND CONDITIONS

TIME: Sale will begin at 7:00 p.m. October 21, 2011.

BIDDING: Each animal on which there are two or more bids, will be sold to the highest bidder.

TERMS: The terms of the sale are cash. Bring your personal or local bank check.

DISPUTES: The auctioneer will settle any and all disputes as to bids by declaring all bids off and reselling the animal in question.

HANDLING: Each animal will be purchaser's risk as soon as sold, but will be cared for by the owner for a reasonable period until they are loaded, free of charge to the purchaser, but at his risk of loss or injury. All bulls are sold and will be paid for prior to loading.

CERTIFICATES: A certificate of registry and transfer will be furnished for each animal sold by respective breeder.

BREEDING GUARANTEED: All bulls have passed a breeding soundness exam at time of sale and are guaranteed breeders. Yearling bulls have passed a breeding soundness exam but should be used lightly. Any animal that has not proven itself a breeder within six months after the sale date, if in healthy condition, and meets the health regulations of the State of Missouri, may be returned to the farm of the seller, at the buyer's expense. The seller reserves the privilege of trying, for a period of six months, to prove the animal a breeder. If proven a breeder, the animal will be returned at the buyer's expense. Should an animal fail to prove a breeder in the specified time period, the sell will refund the full purchase price which shall be considered as full settlement and satisfaction of all claims. All complaints regarding breeding difficulties must be reported in writing by the buyer to the seller within six months.

ANNOUNCEMENTS: Announcements from the auction box will take precedence over the printed matter in this catalog.

CONTRACT: The above terms and guarantee shall constitute a contract between the buyer and seller of each animal sold.

SALE ORDER: Bulls will be sold by index.

HEALTH: The cattle have been vaccinated for all strains of Lepto within 30 days of sale date. Health certificate acceptable for any state will be furnished.

LIABILITY: All persons who attend this sale do so at their own risk, and the sale committee and the University of Missouri assume no liability, legal or otherwise, for any accidents which may occur.

Phone or mail in bids accepted by:
Darrell Aufdenberg, 573-517-0395, 573-270-6755
Sale Day Phone, 573-756-5769.

Show-Me-Select Replacement Heifers

Missouri's New Source
of Replacement Females!

THE FALL SALE FOR SPRING CALVING HEIFERS WILL BE DECEMBER 3, 2011 AT THE FRUITLAND LIVESTOCK AUCTION. THERE WILL BE ABOUT 150 HEIFERS IN THE SALE AT FRUITLAND.

- All heifers have been calthood vaccinated.
- Heifers have met minimum standard for reproductive soundness, pelvic size, body condition and weight and are free of blemishes.
- Heifers have been bred to bulls meeting strict calving ease/birth weight requirements.
- Many of the heifers have been artificially inseminated and are carrying pregnancies by leading bulls in their respective breeds.
- Bred heifers will calve from January 25 to April 29, 2012. Many have been synchronized and will calve in a short time period.

Service Sire Requirements for Show-Me-Select Replacement Heifers
 Bulls of known ID and breed must have serviced heifers. All service sires must have complete EPD information. Major emphasis is placed on **birth weight** and **calving ease** EPD's, but it is recommended to select bulls with balanced EPD's to ensure buyer satisfaction. There are no restrictions in terms of the breed of bull that can be used on Show-Me-Select heifers as long as EPD's for BW and calving ease meet the requirements in the following table.
Bulls qualifying for this program are indicated as "Show-Me-Select".

BREEDING BULLS

If you use natural service with EPDs birth weight or calving ease you must use the numbers listed by each breed on the enclosed chart.

If you use AI the accuracy of each bull's EPD must be .6 with calving ease or birth weight.

Table 1. Service sire EPD requirements for birth weight and calving ease* for 2011

Service Sire Breed	Maximum birth weight EPD	Minimum calving ease EPD
Angus		7
Balancer	-1.5	
Beefmaster	-0.5	
Brangus	-0.7	
Braunvieh		8.5
Charolais		8.0
Gelbvieh		10.9
LimFlex		10
Limousin		11
Maine Anjou	0.9	
MaineTainer	0.3	
Polled & Horned Hereford		1.8
Red Angus		9
Red Poll	1.5	
Salers		0.9
Shorthorn		1.4
SimAngus	-2.2	
Simmental		10
South Devon	1.1	
Tarentaise		4

- Heifers that are bred artificially may not be exposed for natural service for a minimum of:
 - 14 days following a non-synchronized, spontaneous estrus.
 - 14 days after the administration of an estrus synchronization protocol.
 - All sires must be approved by the Regional Contacts prior to the planned breeding season.

The Show-Me-Select Replacement Heifer Program and Sales are sponsored by the Missouri Beef Cattle Improvement Association in cooperation with University Outreach and Extension, the Commercial Agriculture Program, the College of Veterinary Medicine, the Missouri Cattlemen's Association and the Missouri Department of Agriculture. Check our Web Site for more detailed information: www.ext.missouri.edu/agebb/ansci/select

Farm Goals: To raise cattle that will perform on grass as well as in the feedlot.

Footnotes: A super stout good made Bismarck son will put pounds on calves and do well in feedlot. Show-Me-Select. EPD's are estimated, will have actual EPD's sale day.
