Here is an all-purpose baking mix that you can make up ahead of time and store in quantity. It is always ready for quick adaptation to a variety of delicious baked products.

**Here's the Basic MISSOURI MIX Recipe**

1. Stir baking powder, dry milk and salt into the sifted flour. Sift all dry ingredients together until well mixed.

2. Cut fat into flour mixture until all particles of fat are thoroughly coated and mixture resembles coarse cornmeal.

_Yield: 13 cups of MIX._

---

**How Mix Helps**

**Mix Saves Time**

The busy homemaker can combine the dry ingredients and fat at one time for seven to ten bakings. Few mixing utensils are needed for the recipes, so that clean-up time is shortened, too.

**Mix Saves Money**

This MIX made at home is one-third cheaper per cup than a commercial mix. The saving is actually greater since the MIX already contains the necessary milk as well as a higher percentage of fat. Because of this higher fat content the homemade MIX usually gives a more tender product than most commercial mixes.

**Quick Snacks:**

Quickly prepared warm after-school snacks are possible with minimum effort. School children will want to make many of these recipes for themselves.

Many of these quick recipes can be a special treat for unexpected company.

**Variation of Liquids**

Many of the following recipes call for fruit juices as the liquid since the dry milk solids are incorporated in the MIX. These fruit juices add variety as well as nutritive value.
Hints on Mix

Using Mix With Your Own Recipe

Should you have a special recipe that we have not adapted for use with the MISSOURI MIX, you may substitute 1½ cups of the MIX for each cup of flour called for in your recipe. The MIX will contain the necessary baking powder, salt, fat and milk.

Storage: Store in tightly covered container. Mixture may be measured into definite amounts, stored in plastic bags or jars and be ready for speedy mixing of your favorite recipe. MISSOURI MIX made with vegetable shortening may be stored at room temperature for six weeks. MIX made with lard should be refrigerated.

Using Oil: Oil cannot be substituted for solid fat in the Missouri MIX. However, if you first make up a mix of only the dry ingredients, you may add oil and liquid to this dry mix as you make each recipe. (The MIX recipe without fat makes 10 cups.)

If you do this, just add 2 tablespoons of oil and 2 tablespoons additional liquid to the liquid called for in the recipe and follow mixing directions as given.

Oil in the MIX makes satisfactory biscuits, muffins and coffee cakes, but cakes are not satisfactory.

Measuring MIX for recipes:
Do not sift MIX.
Stir lightly before measuring.
Lift lightly into cup and level with spatula.

Biscuits

Basic Biscuits

2 cups MIX
½ cup water

1. Add liquid to MIX. Stir 20 to 25 times.
2. Turn onto lightly floured board and knead about 15 times.
3. Roll to ½-inch thickness. Cut with a floured biscuit cutter or in squares using a floured knife. Place on ungreased baking sheet.
4. Bake in a hot oven (425°F.) for 10 minutes.

Yield: 12-14 biscuits.
**To make each of the following biscuit variations, use the basic biscuit recipe above, then add the ingredients called for in each variation.**

**Bacon Biscuits**
Add 1/4 cup minced crisp-cooked bacon to MIX. Follow recipe for basic biscuits.

**Cheese Biscuits**
Add 1/2 cup grated sharp cheese to MIX. Proceed as in basic biscuits.

**Chicken-Broth Biscuits**
Add 3/4 teaspoon poultry seasoning to MIX. One-fourth teaspoon celery seed may be added if desired. Remove chicken fat from broth before using. These biscuits are excellent served with any chicken dish or used as a topping for chicken pie. If baked on casserole, lower temperature to 400°F and bake 20-25 minutes.

**Drop Biscuits**
Increase liquid in basic recipe to 3/4 cup. No kneading or rolling is required. Drop by spoonfuls onto greased baking sheet, or into well-greased muffin pans.

**Dumplings**
1. Increase liquid in basic biscuit recipe to 3/4 cup. Stir until well mixed.
2. Drop by spoonfuls on top of boiling beef stew or chicken.
3. Cover tightly and steam 12 minutes without removing lid. Serve at once. Of course, larger dumplings require longer cooking than smaller ones. (One fourth teaspoon poultry seasoning may be added to dry ingredients if dumplings are to be served with chicken.)

**Jelly Biscuits**
1. Roll basic biscuit dough 1/4 inch thick.
2. Cut one half of the biscuits with a floured doughnut cutter and the rest with a biscuit cutter of the same size.
3. Lightly butter the thin biscuits.
4. Lay a doughnut-shaped piece of dough on top of each thin biscuit. Place on ungreased baking sheet.
5. Fill center opening with a teaspoon of jelly or jam.

**Jelly Triangles**
1. Roll basic biscuit dough 1/4 inch thick.
2. Cut into 3-inch squares.
3. Place a teaspoon of jelly, jam or marmalade on each square.
4. Fold diagonally to form a triangle. Crimp edges together firmly with fork. Insert fork through top crust of triangle to allow escape of steam while baking.
5. Bake on ungreased baking sheet in hot oven (425°F) for 12-14 minutes.

**Marmalade Upside-Down Biscuits**
1. Cut rolled basic biscuit dough in circles to fit your muffin pans.

3. Spread meat mixture over dough, leaving a ½-inch margin all around the edge.
4. Roll as for jelly roll, beginning with a short edge.
5. Cut into one-inch slices. Place on greased baking sheet.
6. Bake in a hot oven (425°F.) for 20 to 25 minutes or until browned.
7. Serve hot with additional heated sauce or gravy. (Diluted cream of mushroom soup or tomato soup may be used for sauce.)
