

South Central Specialty Crop Growers Association Workshop

My Place Restaurant, Salem

August 20, 2009

- 8:30 am Registration
- 9:15 Introduction to South Central
Region Specialty Crop
Growers Association
- 10:00 Andy Read University of
Missouri Extension - "Getting
the Most Out of Your Product"
– Marketing Strategies
- 11:00 Dr. Will McClain University of
Missouri Extension –
"Managing Missouri Soils" –
Soil Fertility
- 12:00 Lunch

These workshops are for specialty crop growers and those interested in becoming specialty crop growers. Specialty crops cover a broad range of products including vegetables, fruits and cut flowers. These workshops are part of a project to develop a growers association for producers in the South Central Ozark region of Missouri. Members of the association will receive information about the latest production and marketing techniques. Growers association workshops are also a great opportunity for growers to trade ideas about dealing with similar climate, soil and marketing conditions.

There is no charge for this workshop and lunch, but pre-registration is required.
Contact the Dent County Extension Center to register at (573) 729-3196.

Sponsored by University of Missouri Extension with a grant from Missouri Department of Agriculture.
