Freeze Branding Workshop
“Hands-on” instruction to permanently identify your livestock

This Workshop is designed to provide hands-on training for freeze-branding of livestock. Freeze branding, when properly used, provides permanent visible identification on dark hided cattle, such as blacks or reds.

The advantages include:
- Permanent ID that is typically more legible than hot brands
- Improved record keeping
- Reduced hide damage
- Deters theft and enhances recovery of stolen livestock

When:
March 9, 2018
3 pm - 5:30 pm

Where:
MU Wurdack Farm - Cook Station, MO

Are you interested in a method of permanent identification that is visible and improves your ability to keep accurate records?

Are you tired of lost ear tags and/or ear tags that are hard to read?

Are you interested in deterring theft and improving your ability to recover your livestock if stolen?

Cost and Contact Information:
$10 per person—RSVP by March 7, 2018

Space is limited. To register to attend or for more information, please contact Ted Cunningham, Livestock Specialist at the Dent County Extension Office at 573-729-3196 or email cunninghamtc@missouri.edu
