**Garden Symposium  
for public education  
Nathanael Greene Park  
2400 S. Scenic  
Saturday, June 7, 2008  
9:00 am – 12:00 pm**

Sponsored by the  
Master Gardeners of Greene County

# Master Gardeners of Greene County Garden Symposium Nathanael Greene Park Saturday, June 7, 2008

Registration begins at 8:30 am. Class size is limited and will be filled on a first come, first served basis.

You may wish to bring a lawn chair for your comfort. Classes are held outdoors in the gardens.

Cost is \$10.00

You will have the opportunity to attend 3 classes beginning at 9:00 am and ending by noon.

In case of wet grounds or rain, the symposium will be canceled and registration refunded. Listen to KSMU radio, 91.1 FM for notice of cancellation.

Vegetables - What's the scoop on tomato blight, how do I care for, prevent and treat this problem and other problems in the garden?

Natives – Taming Them Into Our Flowerbeds – What varieties look best in my flowerbed? What is so special about Native Plants? How do I take care of them once they are planted?

Making Use of Micro-Climates - Stretch our hardiness zone to the limits. Make use of pockets of varying conditions in your gardens. Develop ideas for inhospitable and hard to grow areas.

1-2-3's of Home Composting - Learn varying ways to recycle all that plant matter from your lawn, garden and kitchen. Make some of that brown gold for yourself

Companion Planting - Discover ways to combine plants in the garden. What works good together, what looks good and who can get along together.

Put-em up, Put-em up!! - Learn how to keep all that wonderful fresh produce you're growing. Canning and preserving - a renewed art form.

Designing My Garden - Learn some basics of garden design and apply them thru a critical look at the park gardens

Oh Where, Oh Where Has My Shade Garden Gone? - Discuss the possibilities that have been handed to you with the ice pruning our trees have endured.

Growing Up In the Garden - Gardening with and for Kids. Look at ways to help children find fun and exciting things to do in the garden.

Permaculture - Preserving bio-diversity, growing plants in your flowerbeds and yard that will feed humans and/or wildlife.

The Green, Green Grass of Home - Find out about summer care of the lawn, and the different types of grass that do well here. Start thinking of what you can do this fall to have a great lawn next summer.

BUGs, There are Bugs in My Garden - I want bugs and birds in my garden, learn why, and learn how to get and keep them there.

Herb, an Herb By Any Other Name Would Still Be Herb. - Learn how to choose, plant and care for herbs. Then learn how to dry them for use later.

New and Different - What are some of the new and interesting things that I can do in my garden and flowerbeds?
