

## BE AN EDUCATED INVESTOR

---

Do you delay or avoid planning your financial future because you need more information or expertise to make such decisions? If this describes you, that attitude will not serve you well in the long term. Be a proactive learner and take charge now of your financial life -- for your future!

Safeguard Your Savings will teach you about:

- the basics of financial planning
- how to invest
- saving for college, a home or retirement
- setting up and managing a retirement account, and
- recognizing and avoiding scams.

We want you to be able to take charge of your financial future ... and you can! Attend this workshop and take the first steps to becoming an informed and educated saver and investor!
