Our distinct land grant mission is to improve lives, communities and economies by producing relevant, reliable and responsive educational strategies that enhance access to the resources and research of the University of Missouri.

Understanding Your Hay Crop and How To Use It For Maximum Potential/Profit
All Hay is Not Created Equal

This Program is designed to discuss the attributes of hay and how it may be used in your operation:
• Just what is quality hay and how do you know that?
• How is hay bought and sold?
• Which forages make the best hay?
• What are some of the common mistakes made when purchasing and feeding hay?
• What is hay really worth?
