

Bull Breeding Soundness Clinics

Are your bulls ready to go out and breed and settle your cows this fall? For insurance have a Breeding Soundness Exam (BSE) on your bulls, both young and old, ahead of bull turnout.

These veterinarians, University of Missouri Extension and Pfizer Animal Health cooperate on these clinics.

October 12 - Barry County Vet Services, Cassville

Contact: Dr. Voyd Brown 847-2677

October 14 - Dake Veterinary Clinic, Miller

Contact: Dr. Chuck Dake 452-3301

October 15 - Countryside Animal Clinic, Aurora

Contact: Dr. Mike Bloss 678-4011

Call For Your Appointment

Based on BSE tests, 10 to 15% of the bulls checked do not qualify as satisfactory potential breeders. Very few are sterile, they're just low fertility and can string out the 2010 fall calf crop.

Handouts on bull management and buying bulls will be available.
