News for May 12, 2008

Last call for early registrations!

If you haven't already registered for the NACAA Annual Meeting and Professional Improvement Conference (AM/PIC) in Greensboro, North Carolina, the deadline for early registrations (no late fee) is May 15th. It's going to be a great meeting. You can register online; visit <http://www.ncacaa.org/2008ampic/>.

Last I heard, there were still spots on the Animal Science tour which occurs right before the AM/PIC. It is another great opportunity. Contact Gene Schurman at exs10@psu.edu or 724-465-3880 by May 16th to sign up.

Please respond to Karisha Devlin with your AM/PIC travel plans if you haven't done so already.

Time for Todd

Our very own Todd Lorenz is running for NACAA Vice President. We will need lots of help with organizing and hosting the hospitality room at AM/PIC as part of his campaign. More details will be sent soon.

MAEP members in the spotlight at the AM/PIC

A lot of MAEP members are doing good work and will be showcasing those efforts at the AM/PIC. If you've been selected for a poster/presentation/award/whatever it might be, let us know!

Matt Herring and I will be representing MAEP as voting delegates at the meeting. Our number of voting delegates depends on our membership numbers. We were just a few short of getting three voting delegates.

MAEP—Explore Missouri

The “Explore Missouri” event that Parman Green has organized for us should be a great opportunity to see agriculture in another part of the state, and get to know our fellow members and coworkers. Around 28 members are signed up for the meeting. We hope that this will become an annual event.

Extension shirt order

Our spring shirt order has come to a close. I’ll let you know the results in a future newsletter.

Outstanding Young Farmer nominations due August 1

Don’t forget to nominate your young farmer clients for the Outstanding Young Farmer award by August 1. Dan Downing is the state and national chairperson for the Ag Issues and Public Relations committee; contact him for more information.

Thanks,
Amie
