CARVER DAY: Saturday, JULY 13
10 am—3 pm

Come join us on the 70th Carver Day Celebration at GWC National Monument in Diamond. Carver Day honors Carver’s birthday. The young child known as the “Plant Doctor” tended his secret garden while observing the day-to-day operations of a 19th century farm. Nature and nurture ultimately influenced George on his quest for education to becoming a renowned agricultural scientist, educator, and humanitarian.

Sherry will have a display of native plants that are edible, medicinal, and ornamental. Our booth is very popular every year. She is looking for Native Plants - or at least those that have naturalized to the point that they would be considered “native.” She’s asking for edible; medicinal & landscape native plants, cuttings, flowers, fruits, and nuts potted, dried, preserved or otherwise made into something useful. Let Sherry know what plants you have to bring or donate and label your plants. Bring them to the meeting. E-mail her for an Edible & Medicinal Plant list. If you have questions, call Sherry McBride at 592-3357.
COUNTY FAIR TIME!

This time of year is our greatest outreach to the community to educate them about our Master Gardeners and their resources. It’s your opportunity to share your expertise with others and meet a lot of great people that share a common interest. Sign-up sheets are available for both fairs. If you are able to staff our booth at a particular time, contact the chairperson. Be sure to wear your shirt and/or name tag. If you have flowering plants to loan for the fair barrels, contact Jutta.
