Stormwater Drainage System Update

On Tuesday, March 1 at 6:30 pm, Steve Ortain and Drew Holt will be updating our Club on the stormwater drainage system proposed for the Crowder College campus. It’s been a year since we’ve visited this project, so it will be good to get first-hand information. Steve comments: “This may be one area where I seek input rather than presuppose I know the full potential of this demonstration site.

Our main focus is to use this as a demonstration model for homeowners, businesses, or institutions to mitigate stormwater issues, and to promote water conservation and sustainable planting...So the MGs will be more of an input to some of these issues as they see the needs of the local communities.

I can give a presentation as to how this ties into the 319 Stormwater Grant Program, but most of the discussion will be on what the MGs envision this could be, and who they think might want to be involved.

We have regional high school students, the MU extension folks, and Crowder students frequent this building, so in essence we are communicating these messages to people visiting the facility every day.”

Join us at the Extension Center for this update!

YOU DON’T WANT TO MISS...

WAKING UP ROSES WORKSHOP by Ron Hoyez
VEGETABLE GARDENING 101 by Jerry Christian
FRUIT TREE PRUNING by John Hobbs

SATURDAY, MARCH 12 (weather permitting)
10:00 am
RON and JACKIE HOYEZ’ home
13888 IBEX RD
592-6187 or 389-3415 or mjhoeyz@yahoo.com

Need more information? Follow the events tab on the website to Rose Clinic Program, check out the February edition of Thumbs Up!, or contact John at the Extension Office.
Our fan numbers are growing! By joining Facebook you will be able to get updates quickly. The website is becoming a one-stop location for posting upcoming events and other information about our club. Take time to look through all the tabs.

Annual Plant Sale Coming Soon!

MAY 7, 2011
8:00 am - 1:00 pm
The Corner Place Shopping Center
Need more info?
Contact Karen Love
451-7371 or elliemaelove@gmail.com
Come early for the best selection!
ALL HELP IS APPRECIATED!

It’s time to start planning. Please mark the name of the plant, sun preference, any pertinent information, and price. We need lots of donations: shrubs, trees, bulbs, perennials, annuals, grasses, ground covers, house-plants and, of course, yard art! Most of all, we need all hands on deck. This is our main fundraiser for the year and 2010 exceeded $2300!
