

LAND OF THE OSAGES RESEARCH CENTER

Grand Opening Ceremony and Field Day

Tuesday, October 29th — 9 a.m.-4 p.m.

GRAND OPENING:

CAFNR has a network of Agricultural Research Centers, called the Agricultural Experiment Station (AES), spread throughout the state. CAFNR will add to that network with the grand opening of the Land of the Osages Research Center. It's the first new Research Center in CAFNR's AES network in more than 30 years.

This Center is funded by a donor's estate gift. He wished to build a partnership between the Osage Nation and agroforestry.

CAFNR is thrilled that Chief Standing Bear and many other leaders from the Osage Nation will be joining us for the Grand Opening of the Center, which will feature more information about the partnership and agroforestry research.
