

Annie's Alumnae Speak Out

"I took the class to gain a better understanding about agribusiness and how financial decisions impact our farm operation. I have a better understanding of balance sheets and the futures market...this class has improved communication with my spouse on concerns he works with on a daily basis." – Linda

"I grew up on the family farm for 21 years, but today's way of farming is much different. As my father would say, 'It's a sophisticated business.' I needed to learn more so I could be an effective member of a team in the areas of marketing and finances. I have learned about the future of farming and have been given a variety of tools that will help my father currently and my husband farm in the future." – Carrie
