MOST PEOPLE DON’T WANT THISTLES IN THEIR PASTURES, I DON’T EITHER. BUT I ALSO BELIEVE WE HAVE A BIGGER CONCERN. POISON HEMLOCK IS BECOMING AN INCREASING PROBLEM. I AM SEEING MORE OF THIS EVERY YEAR.

HEMLOCK IS NOT ONLY IN PASTURES, ALSO LOOK AT OUR RIGHT-AWAYS WHEN YOU ARE DRIVING DOWN THE ROAD. THIS CAN BE CONTROLLED EARLY IN THE SPRING BEFORE IT GETS KNEE HIGH WHILE IT IS YOUNG AND TENDER DURING THE MONTHS OF FEBRUARY THROUGH APRIL. AT THIS STAGE IT LOOKS LIKE CARROT TOPS.

MY THEORY IS GRASS WILL GROW BESIDE A THISTLE, NOTHING WILL GROW BESIDE HEMLOCK. IT IS TOXIC.

GRASS IS LOOKING GREAT FOR JULY!!

PLEASE CALL ANYTIME IF YOU HAVE ANY QUESTIONS.

THANK YOU

Farming looks easy when your plow is a pencil and you are a thousand miles from a corn field.-
Dwight D. Eisenhower

“America will never be destroyed from the outside. If we falter and loose our freedoms, it will be because we destroyed ourselves”-
Abraham Lincoln
