

## **2018-2019 COUNTY WIDE PROJECTS OPEN TO 4-HERS FROM ANY CLUB**

These are special opportunities for 4-Hers to learn and work with members and volunteers from other clubs. They provide at least 6 hours of instruction, with dates and places set by leader. Members need to be in **good standing with their club** to participate in countywide projects and related contests.

*Your role as a responsible and courteous 4-Her is to contact the volunteer directly and attend meetings. If you miss any, but especially the first, you must contact the volunteer leader to get information about the next meeting and assignments. If the project group has already met 2 or more times, you need to check if you can still participate or they have already covered too much material for you to catch up. Attending a majority of the project meetings is required to complete the project.*
