Below you will find spring 2016 diversity and inclusion learning opportunities offered by the Chancellor’s Diversity Initiative (CDI) for MU faculty and professional staff:

**NEW! Diversity & Inclusion Core Concepts Series**

Diversity and inclusion are labels used to express complex, multi-faceted organizational strategies, goals, and values. The purpose of this series is to provide faculty and staff with a foundational understanding of some core concepts related to enhancing diversity and inclusion on our campus.

For information and registration visit: [http://cdi.missouri.edu/programs-services/coreconceptsseries/index.php](http://cdi.missouri.edu/programs-services/coreconceptsseries/index.php)

**NEW! Let’s Talk about Race**

This series is meant for people who seek to develop a better understanding of the complex nature of race and the racial issues that plague our campus, our communities, and our country. The purpose of this series is to provide foundational knowledge related to the concept of race, the challenges of interracial dialogues, and systemic racism. With this foundational knowledge, participants will be better prepared to engage in meaningful dialogues about the issues that we collectively face and to forge pathways to building a stronger, more inclusive campus community and society.
