

Cattle Management Calendar

Monday, November 13, 2017

6:30 p.m.

Private Dining Room in the Robert E. Sechrest Field House

Mineral Area College, Park Hills

Managing cattle is a year-round job regardless of when calving season is. Having a calendar to remind you of upcoming tasks can be very helpful. This program will go over suggested management and health practices to perform each month of the year.

Rachel Hopkins, Ag Business specialist will also cover marketing and financial records that should be performed during the year.

For more information & to RSVP, contact the SFC Extension office at 573-756-4539.
