

After working as a Business Analyst/Project Manager at a Computer Sciences Corporation in Dayton, Ohio for 11 years, Gretchen Luke decided it was time to serve the community through various volunteer work. Since moving to St. Louis with her husband in 2014, she has spent many hours volunteering within the community to help enrich the lives of citizens all throughout the St. Louis metro area.

She has volunteered many hours at St. Louis Children's Hospital and is currently an active volunteer with The Salvation Army Emergency Disaster Services. She is also a current member of the Special Events Commission and former member of the Optimist Club.

In her spare time, she loves to spend time with her granddaughters, read, cook, make stained glass, and keep fit. Physical fitness is very important in her life. Her commitment to a healthy lifestyle is a perfect match for supporting our nutrition programs.

Today, she serves as the Secretary and Treasurer of our St. Louis County Extension Council, where she has been a member since 2018. Through the skills gained with her Bachelor of Science in Business Management and her involvement in the community, Mrs. Luke looks forward to bringing more Extension programs to the community.
