MU Extension, St. Louis County to participate in Give STL Day on May 1, 2019

Kirkwood, MO- University of Missouri Extension in Saint Louis County will be participating in Give STL Day on Wednesday, May 1, 2019.

MU Extension carries out the University of Missouri's land-grant mission by bringing the university's knowledge and research to all Missourians. For more than a century, we have been the "front door" to higher education in Missouri. We improve lives by addressing the highest priorities through the application of researched-based knowledge and resources.

We are a valued and trusted resource for Missourians, touching the lives of over two million residents. Our presence in all 114 Missouri counties, coupled with our network of councils, enables us to listen to the needs of communities, and respond with programming that addresses those needs. From our well-known programs in agriculture, nutrition and health, 4-H, and small business development, to other known continuing education programs for professionals, such as fire and law enforcement training, nursing and medical continuing education and labor education, MU Extension makes a difference with programs that are in demand.

By donating to our mission on Give STL Day, you will continue to help improve the lives of Missourians, especially those in Saint Louis County. Please consider donation early, or bookmark the link to donate on May 1. The link is located at <https://www.givestlday.org/muextstl>. Thank you for your support!

University of Missouri Extension improves people's lives through relevant, responsive and reliable research-based education from the University of Missouri. With courses ranging from Robotics to Gardening, we deliver a full spectrum of quality educational programming.
