#### Diet Quality and Physical Activity Indicator Examples
- Plan menus/choose foods using Food Guidance System
- Eat nearer to Food Guidance System recommendations

#### Food Security Indicator Examples
- Identify emergency food sources
- Enroll in non-emergency food programs

#### Food Safety Indicator Examples
- Able to practice personal hygiene, such as hand washing
- Increase practice of personal hygiene, such as hand washing

#### Shopping Behavior/Food Resource Management Indicator Examples
- List available food resources
- Use at least one beneficial shopping technique

#### Agency partners...
- Gain awareness
- Indicators show: Involvement of community groups in actions to address
- Commit to change
- Indicators show: Community group actions to adopt plans addressing core areas
- Solve community problems
- Indicators show: Improvements in core areas reflected by community action

#### Policy makers...
- Identify and define issues
- Indicators show: Identification of issues related to core areas
- Work toward needed changes
- Indicators show: Evidence of action taken to address changes needed in core areas
- Revise/adopt laws, policies and practices that support sustained improvements
- Indicators show: Evidence of change in law, policy or practice related to core areas

---

The goal of community nutrition education is to provide educational programs and social marketing activities that increase the likelihood of people making healthy food choices consistent with the most recent dietary advice as reflected in the Dietary Guidelines for Americans and the Food Guidance System, with special attention to people with limited budgets.

---

Revision of the 2002 CNE Logic Model by a national program management and reporting workgroup with Land-Grant University, State Public Health, and CSREES/USDA representation.
