

Harrison County Resource Guide

Our friends over at the Harrison County Interagency Council have developed a Resource Guide for our area. We think this would be very beneficial to our viewers.

The purpose of the Harrison County Interagency Council is:

To bring together staff members of human service agencies to enable them to exchange program information, provide updates, and publicize the services each has to offer.

To develop/update a resource directory to be used by the human service agency professional to provide them with information about other human service agencies and to assist them with client referrals.

To sponsor educational opportunities for the service agency professionals.

The Membership of the Harrison County Interagency Council shall consist of:

Staff and board members of the human service organizations that serve Harrison County. Other interested individuals could also join.
