December 1, 2021

Dear county commissioners and friends of MU Extension and Engagement,

As we look forward to 2022, I want to take a moment to celebrate all that we have accomplished together this year. You, our closest partners, are key to improving Missourians' lives and opportunities.

You have been vital to the work that has already extended broadband access and workforce development strategies statewide. You have helped us connect with the right partners, working together toward meaningful outcomes that will help our communities thrive in our areas of greatest need around the economy, education and health.

During MU Extension and Engagement Week in October, we learned about some of the ways that MU's NextGen Precision Health Initiative will help Missouri improve statewide health care indicators from our current ranking of 38th in the nation to 25th.

COVID-19 has shown us that we must expand investment in our health care resources, knowledge and infrastructure. It has exposed the urgent need to make research and expertise available in communities and to empower individuals and providers to address every aspect of individuals' and communities' health needs — including the inequities of social determinants and their effects on people's health.

Our extension faculty is poised to help identify those needs and be the bridge to the health care providers and caregivers, the clinical trials and public health initiatives that can deliver improved healthcare access and outcomes in every county across our state.

I hope you see the impact of your hard work this past year throughout this county annual report. I thank you for your continuing support as we recommit ourselves to do what we do best: help communities thrive through civic engagement, community building and neighborliness. We look forward to continuing the programs, partnerships, and sharing of knowledge that foster kindness, caring, respect and deep connections in the year and decade to come.

Sincerely,

Marshall Stewart, EdD

Century Farm

The Missouri Century Farm program, administered by University of Missouri Extension, awards certificates to persons owning farms that have been in the same family for 100 years or more. The line of ownership from the original settler or buyer may be through children, grandchildren, siblings, nieces or nephews, including through marriage or adoption. The University of Missouri Extension in Iron County awarded Homer and Linda Lewis and family with the Missouri Century Farm designation. The 158 acre Lewis farm has been owned and operated through generations of the Lewis family since 1921.

According to Brad Coleman, MU Extension Specialist, Century farms and the farm families are recognized for their rich history in providing sustainable farming to our communities. "It was a delight to visit with Homer and Linda Lewis to learn about the family history of their farm and the many contributions the Lewis family has made to the citizens of Iron county." The Lewis farm is located in Vulcan, Missouri.

State Fair Farm Family

The Iron County Extension Council selected the Moise family of Belleview as Iron County's 2021 Farm Family. The Moise family was honored in August of 2021 at the Missouri State Fair Farm Family Day. Each year the fair sets aside a day to recognize farm families from across the state who are active in their communities, involved in agriculture, and/or participate in local outreach and extension programs. The event highlights the impact Missouri Farm Families have on the economy and heritage of the state.

Leaders Honor Roll

The Leaders Honor Roll program is intended to honor outstanding University of Missouri Extension community leaders who have excelled in supporting programs. Extension staff select recipients based on community leadership efforts that support the University of Extension Strategic Direction and program priorities. In 2021, two 4-H volunteers, Angela and Deron Gibbs were selected along with Terri Matthews, a Soil and Water employee. Angela and Deron were selected for their hard work and dedication in establishing projects and programs for the 4-H program in Viburnum. Both have served as officers and project leaders in the Viburnum Blue Jays 4-H Club. They are positive role models and work tirelessly to recruit youth to the 4-H club. Terri Matthews has helped to manage the office and take care of all soil samples for Iron and Reynolds county. Her efforts have been appreciated.

Educational Excellence

4-H GROWS HERE

Brad Coleman is the County Engagement Specialist in 4-H Youth Development for Iron County. Brad has been working to build relationships and partnerships with the major stakeholders of our county. Brad has served as the Soil and Water Board secretary and is on the Emergency Preparedness Committee, the Long Term Recovery Committee, the Iron County Health Coalition and the

Iron County Chamber of Commerce. He has been trained to provide programs in College and Career Readiness, Emergency Preparation, and SNAC—the Student Nutrition Advisory Council.

Brad has been meeting with school officials and student groups to expand 4-H programs in Iron County as well as Butler, Madison and Wayne counties. He has had organizational meetings and Open Houses for 4-H throughout the county. He created the second 4-H Club in Iron County called the Viburnum Blue Jays 4-H Club in December of 2018 and has recently created the a third club called the Belleview Braves 4-H Club in Belleview. Once again, Iron County has seen double digit increases in the number of youth and parent volunteers served in 4-H clubs. Brad has also worked with implementing after school programming in 4-H projects. Brad provided an emergency preparedness training for middle school students called Ready in the Middle at the Arcadia Valley School District. He set up Kinship Care classes with the school district. He has taught the Youth Futures College and Career Readiness program at school districts throughout the area and is working on Character Education programs in all school districts throughout Iron county. Brad will continue to work with the schools in our county to increase awareness about 4-H and the curriculum

it has to offer to help members learn life skills such as leadership, citizenship, responsibility, teamwork and community service.

As our County Engagement Specialist, Brad is our direct link to the University of Missouri system and all that the University of Missouri Extension has to offer. New programming has been brought to Iron County including a Matter of Balance class for senior citizens in Annapolis, Tai Chi classes in Ironton and a gardening class at Arcadia Valley. Brad has presented programs in the Iron County C-4 School District on College and Career Readiness and Personal Finance. He has presented workshops on University of Missouri Extension programs for the faculty and staff of Iron County C-4, as well as presentations to all school superintendents in Iron County and the city councils of Ironton and Pilot Knob. Brad has re-established the Community Gardens project with all beds cleaned and replanted this year. Food was donated to the local food pantries. He wrote three community improvement grants with the local 4-H clubs to build a community garden, landscape a median and renovate the fairgrounds.

In year 2022, Brad will continue to serve as the 4-H Youth Specialist for Iron county. He will continue to write grants and work with the youth of the county to bring more projects and programs to Iron county. Stephanie Schindler will assume the role of County Engagement Specialist. She hopes to be bring University of Missouri Extension programs in health, nutrition and community economic development to Iron county. Brad's goals are to continue to work with schools, community groups and civic organizations throughout the county to provide services that will be beneficial to the citizens of the county, especially our county youth. You can contact Brad at our office, by email at colemanlb@missouri.edu or by phone at 573-546-7515 or 573-747-9253.

Iron County Highlights

As the birthplace of 4-H in Missouri, Iron County is proud to offer 4-H programs that are engaging, relevant and provide our youth with the knowledge and skills to be successful in the future.

Iron County now has three 4-H clubs, the Viburnum Blue Jays 4-H Club, the Iron County 4-H Club and the Belleview Braves 4-H Club. Currently, there are 88 enrolled 4-H youth members and 52 trained 4-H parent volunteers. An additional 500 plus youth are served in the 4-H school programs in the Arcadia Valley, Belleview, South Iron and Iron County C-4 School Districts.

Iron County 4-H clubs offer long-term educational experiences in which members learn life skills such as leadership, citizenship, responsibility, teamwork, and community service under the guidance of trained adult volunteers. Our 4-H clubs are co-ed and open to everyone ages 5-18 so the whole family can be involved. Our project-based learning teaches youth life skills, such as goal setting, while they pursue what interests them. Our 4-H'ers connect to the University of Missouri for hands-on learning and leadership events on campus. Participation in 4-H activities encourages skills such as wise use of resources, decision-making, goal setting, marketable skills and self-motivation. We are creating youth who care about and contribute to the economic vitality of the entire community.

Iron County 4-H members learn by doing under the guidance of adult volunteers, who teach projects ranging from computer science and arts to animal science and healthy living. Clubs also involve youth in community service, camping and educational trips. Our most popular project areas are outdoor adventures and shooting sports.

How do our 4-H programs make Iron County and Missouri better? 4-H is growing future scientists. 4-H members are three times more likely to go into science related careers than similar peers are. Studies show that youth in programs like 4-H are 70% more likely to attend college, increasing their earning potential by over \$2 million over their lifetime. Communities reap long-term benefits when they support 4-H clubs. Youth engaged in the program are 60% more likely to vote than their non-engaged peers are. In addition, 4-H youth are more likely to volunteer and contribute to their communities.

Iron County Highlights

Iron County Community Gardens

Next time you are driving around Ironton, come by the Iron County Missouri Community Gardens located at 106 N. Knob St. in Ironton and check out the great work of our volunteers and citizens on the garden project. The Community Gardens committee worked with the local 4-H club and the Girl Scouts to clean out the current beds, bring in new mulch and dirt and establish guidelines for the use and rental of the garden beds. Johnny Underwood, 4-H club leader, hauled in new dirt and mulch. Steve Blanton and John Proffitt both offered their help and assistance with donated plants and seeds to be used by families or civic groups that signed up for a bed. Brick Autry helped set up assistance for water and other needs with the St. Paul's Episcopal Church.

All beds are in use and the area looks fantastic. Six of the over 20 beds were reserved for use by the Girl Scouts and Iron County 4-H Club. Johnny Underwood, current 4-H club leader stated that "both groups have donated the tomatoes, squash, zucchini and other vegetables to the local food pantry in Ironton. We are proud of the hard work and dedication our youth have shown to the Community Gardens." According to Casey King from the Girl Scouts "the Girls Scouts have donated 75lbs of produce from our garden so far. We have been harvesting for about a month now, and the weekly output is steadily increasing. We have also established an area for the community to harvest vegetables. The community beds are the first three beds moving from left to right."

The Iron County Community Garden Committee is made up of volunteers led by the Iron County University of Missouri Extension office, the local Girl Scouts, the Iron County 4-H club and numerous other volunteers in our community.

The Iron County MU Extension office will be using the gardens to teach gardening programs to the adults and youth of Iron county throughout the 2021-2022 school year. The Girl Scouts and Iron County 4-H club are growing food for our local food banks. Additional information is available by checking out our Facebook page (Iron County Missouri Community Gardens or University of Missouri Extension Iron County) and visiting the Iron County University of Missouri Extension office located at 123 West Wayne Street in Ironton. You can also contact Brad Coleman, County Engagement Specialist, by email at colemanlb@missouri.edu

The Iron County Missouri Community Garden was established in 2010 by East Missouri Action Agency with the help of St. Paul's Episcopal Church, the Iron County University of Missouri Extension Center and the Iron County Health Center and through the use of America Recovery and Reinvestment Act funding. The garden is located at 106 N. Knob St. in Ironton, Missouri.

Iron County Highlights

THE **NRA** FOUNDATION

T E A C H F R E E D O M

The NRA Foundation Awards \$25,000 in grants to the Iron County 4-H Club and the Belleview Braves 4-H Club

The NRA Foundation has awarded the **Iron County 4-H Club** a grant totaling **\$25,000** to fund additional archery and shotgun equipment and supplies. "We are very excited about the additional equipment and supplies that will be used by our club and the Arcadia Valley School District through our afterschool archery program," said **Charles Sayles**, Archery project leader "and pleased that the NRA is making an investment in our community." The Iron County 4-H Club will continue to offer archery and shotgun projects for the youth of the Arcadia Valley. Interested youth should contact Brad Coleman, Iron County 4-H Youth Specialist at coleman@missouri.edu

The NRA Foundation has awarded the **Belleview Braves 4-H Club** a grant totaling **\$25,000** to fund initial archery and shotgun equipment and supplies. "This grant will allow the Belleview 4-H Club to purchase archery and shotgun equipment and supplies that will be used in our newly established program," said Brad Coleman, 4-H Youth Specialist for Iron County. "We look forward to starting an archery program at the school where our youth will compete in school archery events as well as 4-H sponsored events all over the state." Currently, the Belleview Braves 4-H Club will begin offering archery and shotgun projects for the youth of the Belleview area in partnership with the Iron County 4-H Club Arcadia Valley. Interested youth should contact Brad Coleman, Iron County 4-H Youth Specialist at coleman@missouri.edu

About the National Rifle Association

Established in 1871, the National Rifle Association is America's oldest civil rights and sportsmen's group. Five million members strong, NRA continues its mission to uphold Second Amendment rights and is the leader in firearm education and training for law-abiding gun owners, law enforcement and the military. Visit nra.org.

About The NRA Foundation

Established in 1990, The NRA Foundation, Inc. is a 501(c)(3) tax-exempt organization that raises tax-deductible contributions in support of a wide range of firearm-related public interest activities of the National Rifle Association of America and other organizations that defend and foster the Second Amendment rights of all law-abiding Americans. These activities are designed to promote firearm and hunting safety, to enhance marksmanship skills of those participating in the shootings sports, and to educate the general public about firearms in their historic, technological, and artistic context. More information about The NRA Foundation can be found online at www.nrafoundation.org.

About Friends of NRA

Friends of NRA is a grassroots fund-raising program that fosters community involvement to organize and, with help from NRA field staff, plan community events for firearms enthusiasts. All net proceeds from *Friends of NRA* events are allocated to The NRA Foundation, the leading charitable organization in support of the shooting sports. Through NRA Foundation grants for equipment, materials, range improvements, and more, qualified local, state, and national programs retraining give aid to involve and inspire a new generation of competitive shooters. Learn more about *Friends of NRA* at www.friendsofnra.org.

Healthy Futures

FAMILY NUTRITION PROGRAM (FNP)

The Supplemental Nutrition Assistance Program Education (SNAP-Education or SNAP-Ed) brought \$9,646,109.00 in federal funds to Missouri. The funds support engagement with 485,010 Supplemental Nutrition Assistance Program (SNAP) recipients and eligible citizens of Missouri. There were 321,372 direct educational contacts. This year we had 1,383,799 indirect educational contacts through newsletters, health fairs, food pantries, and the Show Me Nutrition helpline. A total of 1309 direct and indirect contacts were made in Iron County. Participants in SNAP-Ed learn the importance of making healthier meals and snack choices, eating breakfast more often, are more willing to try new foods, increase their physical activity, and make healthier food choices. Those who practice healthy eating and are physically active are more likely to contribute to a healthy labor force and enjoy a high quality of life throughout the lifespan. This vital programming effort also reduces healthcare costs over the participant's lifetime, saving taxpayer money in reduced public healthcare benefits and insurance premiums.

A total of 1309 direct and indirect contacts were made in Iron County.

Tai Chi (Ironton) Tai Chi is an evidence-based exercise program with many health benefits. It combines gentle physical exercise and stretching with mindfulness. Tai Chi exercises the joints, muscles and internal organs while simultaneously strengthening the mind. Tai Chi relieves stress and brings harmony to yourself and others. Scientific studies have shown Tai Chi to improve health, quality of life, and balance. The fluid, gentle movements improve muscular strength, flexibility, and fitness, as well as relaxation, balance, posture, and immunity. The Arthritis Foundation USA supports Dr. Lam's Tai Chi for Arthritis program as an intervention for fall prevention. Tai Chi is appropriate for individuals with or without arthritis, joint and muscle pain, or elevated risk of falling. The cost for the program was sponsored by Shelter Insurance agent Leslie Stephens of Ironton.

Show-Me ECHO (*Extension for Community Healthcare Outcomes*) uses videoconferencing to connect interdisciplinary teams of experts with primary care providers and other professionals. Participants collaborate in interactive case-based learning to develop advanced skills and best practices, which improves patient care, access, quality and efficiency. Show-Me ECHO learning sessions offer free continuing education and are provided at no cost to participating sites and individuals. MU Extension officials from across Missouri have been collaborating with Show-Me ECHO to help increase awareness of the opportunities Show-Me ECHO provides to rural communities, as well as help increase participation in their learning programs.

Show-Me ECHO currently has over 27 different topics that our ECHO's cover. Many of them strive to reduce health disparities and improve health outcomes in rural communities. Iron County's Nutrition and Health Education Specialist has been actively promoting these programs to professionals in organizations throughout the communities and meets weekly to share outreach efforts, brainstorm additional opportunities for outreach, and trouble shoot challenges. Professionals from Iron County have participated in several ECHO's:

- Asthma
- Pain management
- Telemedicine/Behavioral Health
- Viral hepatitis & fatty liver
- Autism Behavior Solutions
- Covid-19
- Developmental disabilities
- Pediatric sleep

Healthy Futures

Student Nutrition Advisory Council–SNAC

The Iron County University of Missouri Extension office used a \$500 grant from Missouri Care and the Missouri 4-H Foundation to jump-start new 4-H SNAC clubs at the Arcadia Valley School District. 4-H Youth Specialist Brad Coleman led the effort to secure the grant and set up the program for the Arcadia Valley After School Program.

“We were excited to partner with the Arcadia Valley School District to raise awareness and provide new clubs that will work to promote nutrition, physical activity and an advisory component for youth to spread the word about nutrition and leading a healthy lifestyle,” said Brad Coleman. “All youth who participate in the program become our Student Nutrition Advisory Council or SNAC participants. Arcadia Valley After School program elementary students were excited about the club and enthusiastic about spreading the messages they learned about gardening and promoting physical activity. We promoted our Eating from the Garden program and learned about the healthy foods that can be planted in a home garden.”

Some of the quotes from our youth included “I can grow lettuce from these tiny seeds.” Another youth mentioned how she “would love to see our family plant a garden so we do not have to go to the store to buy our vegetables.”

The funding helped support supplies for the advocacy projects, 4-H promotional items that were given as prizes, and the seeds and soil needed by the youth to plant their seeds at the outdoor gardening area behind the elementary school. According to Brad Coleman, “this exciting partnership helps us to promote healthy eating and physical activity to a greater audience. I am eager to continue a partnership with our new Nutritional Program Associate, the Arcadia Valley School District and other school districts throughout Iron county to continue to reach more youth and help advocate for healthy eating and a healthy lifestyle. We purchased flags that will be displayed at the school and local businesses that promote our message of ‘Ask me about my SNAC’ ”

County population: 10,164

County services provided

Health care (FY21)

- 40 in-state patients seen at MU Health Care, with \$3,919 of uncompensated care
- MU Health Care's Missouri Telehealth Network recorded 50 visits to patients having a ZIP code associated with the county

Extension (2020)

- 1,199 Total educational contacts from MU Extension to residents of the county, including:
- 1,180 contacts related to healthy eating and aging, strengthening families, personal finance, or youth development
- 19 contacts related to starting businesses, developing community leaders, or renewing the local economy

UM System Statewide Footprint

Economic and Community Development Highlights

- In 2019, Business Development Specialists worked with small businesses and entrepreneurs statewide to create or retain 54,494 jobs.

For every dollar invested from 2015 to 2017, the MU Extension Business Development Program has returned \$120 in economic impact for its clients by increasing sales more than \$1.19 billion. For a total impact of \$2.7 billion, the program has generated more than 29,000 jobs and attracted nearly \$347 million in capital investments and \$1.17 billion in government contracts.

- Between FY15 and FY20, UM System brought Missouri more than \$1.27 billion in federal and private research funds, funded primarily from outside the state but spent within the state.

In FY21, UM System was issued 30 patents and filed 60 new U.S. patent applications.

- In FY21, the UM System awarded 722 design and construction project contracts throughout Missouri, for a total investment of \$132.0 million in the state.

In FY21, MU Health Care's Missouri Telehealth Network Show-Me ECHO Program participated in 24,400 hours of case-based discussions with 3,017 community providers located in underserved areas in the City of St. Louis and 116 of the 114 Missouri counties.

Education and Training Provided

50,604 police, fire fighters, and medical professionals attending continuing education (2020)

Agriculture and natural resource programs served 147,623 farmers and related businesses (2020)

295,444 youth and stakeholder educational contacts in 4-H clubs, schools, camps and other programs (2020)

Education Highlights

FY21 Financial Aid Awards

In FY21, 71.1% of the UM System's 78,208 students received financial aid totaling \$923 million

UM System's MOREnet (Missouri Research and Education Network) provides internet connectivity, access, support and training to 57 higher education institutions (250,187 students), 491 K-12 school districts (850,000 students) and 136 public libraries (serving nearly 3 million Missourians) in 2020.

- UM System awarded 50.4% of the 30,932 Bachelor's or higher degrees awarded by Missouri four-year public institutions in 2020-21.
- UM System awarded 39.2% of the 1,897 research doctorates and 26.4% of the 3,606 professional doctorates awarded by Missouri public and not-for-profit private institutions in 2020-21.
- In 2021, UM System's \$22.5 million in National Science Foundation (NSF) grants represented 84.1% of all NSF grants made to Missouri public colleges and universities.

Supporting the University of Missouri is an investment in the future of Missouri.

The university advances Missouri citizens and communities through its mission of teaching, research, public service, and economic development across our four campuses and University of Missouri Extension.

MU Extension is a unique funding partnership.

Extension funding is a three-way partnership of federal, state and county government. Federal and state money, through the University of Missouri system, pay professional staff salaries, training costs, computers and communication equipment. County funds support the local office, secretarial and youth assistant salaries, staff mileage and council expenses.

The Iron County Extension Council, faculty and staff would like to express our appreciation to the Iron County Commissioners for their continued support of extension programs.
