Randall Norden
Executive Director
Missouri Rural Water Association

Bachelors of Science in Limnology/Fisheries

Born in St. Louis, Randy grew up on a farm near Troy in Lincoln County. A member of FFA through high school, Randy went on to college to receive his Bachelors of Science in Limnology/Fisheries followed by military service in the U.S. Army, Missouri Army National Guard, and U.S. Navy Reserve. Randy began working for MRWA in 1994 as Groundwater Technician and since has been Training Specialist, Special Projects Coordinator, Deputy Executive Director and currently serves as the Executive Director.

TOPIC
How Ag Practices Affect Drinking Water

Agriculture and Drinking Water, How it affects YOUR operation

presented by:
Eric Fuchs

Scott Brown, PhD
Director of Strategic Partnerships
Associate Extension Professor Agricultural and Applied Economics
University of Missouri College of Agriculture, Food and Natural Resources

BS, Agricultural Business, Northwest Missouri State University, 1986
MS, Agricultural Economics, University of Missouri, 1991
PhD, Agricultural Economics, University of Missouri, 1994

During the past two decades, Brown has worked extensively in determining the quantitative effects of changes in federal dairy and livestock policies and has testified regularly before U.S. Congress. He currently works with the Missouri legislature on the economic effects of state policy options on Missouri agriculture. He also provides regular market outlook on the livestock and dairy industries.

TOPIC
Current Economic Issues for Missouri Agriculture

International Markets for U.S. Beef

College of Agriculture, Food and Natural Resources
