January 5, 2017

Dear County Commissioners and Friends of MU Extension:

The past year was a busy one for University of Missouri Extension. As a long-time extension professional and newcomer to Missouri, I have found the support from people like you to be remarkable. Missouri is a special place with a promising future.

Through the efforts of faculty, staff and amazing volunteers, MU Extension connects millions of Missourians with knowledge they put into action in their daily lives. Using a range of learning experiences, we reach people of all ages and backgrounds, in every corner of the state.

In response to direct input received from local councils and the unique nature of each county, extension programs vary slightly across the state. This strength of local flexibility and public engagement enables county-based Mizzou faculty to provide local learning experiences that improve lives and community vitality. For example:

- MU Extension business specialists helped local Missouri businesses achieve sales increases of \$186 million while creating or retaining 7,766 jobs.
- Helping assure access to health care in local communities, MU Nursing Outreach made it possible for 2,094 nurses keep their skills up to date.
- Our 4-H youth development specialists and other extension team members worked with volunteers and community leaders to reach 269,000 youths ages 5 to 18 across the state.
- Anticipating the needs of Missouri's aging farm population, extension faculty developed workshops that target estate planning, succession and retirement planning specific to farmers.

These are just a few examples of how Mizzou's commitment to extension and engagement benefitted Missourians this past year.

In the interest of better serving Missourians, we are conducting a statewide needs assessment. It will include extensive input from local communities and stakeholders. It will result in stronger alignment between extension programs and local needs.

I encourage you to read the attached annual report from your county office to gain an understanding of how MU Extension has worked this past year to serve your community.

Your support of MU Extension and our efforts in your community is greatly appreciated. As always, I welcome your input on how the University of Missouri can better serve the people.

Sincerely,

Marshall Stewart, Ed.D.

Vice Chancellor for Extension

A Message from the Council

Dear Friends of Extension:

Thank you for continuing to make University of Missouri Extension relevant and successful in providing educational programs for citizens of Ste. Genevieve County. This annual report outlines the success MU Extension has had in Ste. Genevieve County in 2016.

We are pleased to provide a brief overview of some of those successes. County citizens helped determine our programming focus by defining local needs and priorities. Program emphasis areas include agriculture, business and economic development, strengthening families, enhancing health and nutrition, protecting the environment and youth development. Efforts to provide this programming include short courses, meetings, newsletters, telephone consultation and one-on-one interaction.

The success of University of Missouri Extension in Ste. Genevieve County depends upon the dedication and support of members of the Extension Council. The council assists staff with planning and implementing programs by communicating the interests and concerns of local citizens. Programming requires the best efforts of our partnerships in the state to maximize and apply our resources where the greatest impact can be made.

As we address the challenges of the future, we appreciate the continued support and hard work of the Ste. Genevieve County Commission. In addition, we salute the many volunteers, community leaders, organizations and businesses, extension council members and staff who have given of their time and talents. Together we look forward to enhancing the economic well being and improving the lives of the citizens of Ste. Genevieve County in 2017.

Stephanie Schindler

<p>Number of Learners in 2016</p>	<ul style="list-style-type: none"> ◆ 45 4-H members ◆ 15 trained 4-H volunteers ◆ 5 organized county 4-H Clubs 
<p>What Did They Learn?</p>	<p>Ste. Genevieve County 4-H clubs offer long-term educational experiences in which members learn life skills such as decision making, leadership, responsibility and team work. Members learn by doing under the guidance of adult volunteers who teach the different project areas. Clubs also involve children and teens in community service and educational trips.</p>
<p>How Participants Benefit</p>	<p>4-H helps grow caring, confident, contributing members of the community. The youth are empowered with knowledge of how to set goals, learning management skills, self-motivation and an understanding of what it means to be part of something bigger than themselves.</p>
<p>How Does This Work Make Ste. Genevieve County and Missouri Better?</p>	<ul style="list-style-type: none"> ◆ 4-H members are the future leaders, businessmen, and community members of Ste. Genevieve County. Learning the skills that 4-H has to offer and by empowering youth, our volunteers have helped to create a better community for all of us to live in. ◆ 4-H is growing future scientists! 4-H members are 3 times more likely to go into science related careers than similar peers. ◆ Studies show that youth in programs like 4-H are 70% more likely to attend college and increase their earning potential by \$2.01 million over their lifetime. ◆ Communities reap long-term benefits when they support 4-H. Youth engaged in the program are 60% more likely to vote than their non-engaged peers. In addition, 4-H youth are more likely to volunteer and contribute to their communities.

Ste. Genevieve County

4-H

4-H Youth Specialist
Stephanie Schindler

Ste. Genevieve County 4-H clubs and programs offer long term education experiences to participating youth through 4-H activities and meetings. Members learn life skills such as decision making, public speaking, and working with others throughout their 4-H career. 4-H project work is a large part of how members “Learn By Doing.” Project experiences and related educational opportunities help youth explore interest areas in animal science, communications and expressive arts, civic engagement, consumer and family sciences, environmental sciences, health and safety, leadership, plant and physical sciences, technology, and many more. Many 4-H members in Ste. Genevieve County complete a variety of projects to exhibit at the Ste. Genevieve County fair. In 2016, 10 members exhibited steers and 21 members exhibited hogs. In addition to the large animal exhibits, members showed poultry and rabbits, as well as submitted over 100 projects in the exhibit hall. It takes the support of 4-H volunteers, parents, and the community members to make 4-H a success in Ste. Genevieve County.

Program Highlight

Clover Kid Club Engages Youth at an Early Age

Ste. Genevieve County 4-H saw a new club start in 2016. The Ste. Genevieve County 4-H Clover Kids started meeting in January and has continued meeting monthly throughout all of 2016. Youth who participated in the Clover Kid Club were between the ages of 5 and 7 and took part in fun activities that were a part of a theme each month. Members also took part in the annual Clover Campaign fundraiser at Tractor Supply Company. The club had 5 youth enrolled and attend meetings each month. Youth who participated in the Ste. Genevieve County 4-H Clover Kid Club learned to say the 4-H pledge, learned what the 4 H’s stood for, and took part in projects and activities that centered around a 4-H project each month.

4-H Pledge

I pledge my HEAD to clearer thinking,
my HEART to greater loyalty,
my HANDS to larger service,
and my HEALTH to better living,
for my club, my community, my country, and my world.

Horticulture

Horticulture Specialist
Kate Kammler

<p>Number of Learners in 2016</p>	<ul style="list-style-type: none"> ◆ 437 direct contact participants through programming (participants are actively engaged in the learning process); examples include Master Gardener Programs, Farmer’s Market Workshop, and individual contacts such as farm visits ◆ 8531 indirect contacts through calls, walk-ins, emails, monthly gardening newsletter, meetings, and other special assignments
<p>What Did They Learn?</p>	<p>Participants who engaged in horticultural/agronomy programming learned about integrated pest management (insects, weeds, disease), soil health, general plant care, and variety selection.</p>
<p>How Participants Benefit</p>	<p>Participants who gained knowledge on horticulture/agronomy topics may benefit in the following ways:</p> <ul style="list-style-type: none"> ◆ Learn to identify the problem, be it insect, disease, weed or nutrient and use an effective control measure, therefore reducing pesticide application and runoff into local water systems. ◆ Knowledge gained about soil health leads to saving money by applying the need rates of fertilizer, reducing nutrient runoff, and improving soil quality for future generations. ◆ Knowledge gained on general plant health and selecting the right plant for the right place for landscaping leads to increased property values, environmental benefits of reduced erosion and improved air quality, and conserving natural resources through reduced heating/cooling costs. ◆ Knowledge gained on home vegetable and fruit production leads to increased consumption of healthy food and increased exercise.
<p>How Does This Work Make Ste. Genevieve County and Missouri Better?</p>	<p>When you support the community Integrated Pest Management (IPM) program, participants will increase the use of IPM, increase use of personal protective equipment, and read the label contributing to correct pesticide application practices, which leads to reduced use of pesticides, decreased pesticide exposure, and increased IPM practices. This will benefit the community by reducing cost to consumers, increasing health and safety, and protecting the environment.</p>

Agriculture Business

Agriculture Business Specialist
Rachel Hopkins

<p>Number of Learners in 2016</p>	<ul style="list-style-type: none"> ◆ 345 Direct Contact participants through programming (participants are actively engaged in the learning process) <i>i.e.</i>, Farm Lease, Quicken For Farmers ◆ 9 Individual Contacts <i>i.e.</i>, e-mails, phone calls, walk-ins ◆ 15 Indirect Contacts (information distributed) <i>i.e.</i>, meetings and other special assignments
<p>What Did They Learn?</p>	<p>Participants who engaged in agriculture business programming learned about cash and crop share leases, pertinent items to included in a lease, record keeping, current trends in agriculture markets and livestock risk protection.</p>
<p>How Participants Benefit</p>	<p>Participants who gained knowledge on farm business management topics may benefit in the following ways:</p> <ul style="list-style-type: none"> ◆ Greater knowledge of farm leases and key points need to be included in a lease. This enables better landlord/tenant relationships, potentially saving money in litigation fees if there are disputes between parties. ◆ Knowledge of record keeping gives farmers greater confidence to keep better records and generate financial reports. Good records translates to better decision making and increased profitability. Additionally, tax accounting becomes easier and saves on accountant fees. ◆ Agriculture lenders are able to assist their clients make informed decisions derived from the decision tools, budgets and other resources. This benefits their producers by a better understanding of enterprise budgets and cash flow affecting families' and businesses' financial health.
<p>How Does This Work Make Ste. Genevieve County and Missouri Better?</p>	<p>Farm Business Management programs encourage improved business practices by producers which translates to higher profitability. When farmer's are profitable, they will reinvest in their operation, which in turn supports local communities and businesses and thus helps to sustain Missouri's rural economies.</p>

Livestock Education

Livestock Specialist
Kendra Graham

<p>Number of Learners in 2016</p>	<ul style="list-style-type: none"> ◆ 142 direct contact participants through programming (participants are actively engaged in the learning process); <i>i.e.</i>, beef cattle workshops, kids conservation day, Show-Me-Select program, grazing schools, Cattleman’s meetings, and Show-Me Quality Assurance training. ◆ 32 individual contacts (one on one); <i>i.e.</i>, farm visits, walk ins, phone calls, emails. ◆ 164 indirect contacts (information distributed); <i>i.e.</i>, newsletters, SEMO Bull sale, meetings, and other special assignments.
<p>What Did They Learn?</p>	<p>Participants who engaged in livestock programming learned about heifer development, forage management, animal nutrition and vaccinations, livestock risk protection, and fencing systems. Youth participating in the Show-Me Quality Assurance training learned about animal handling and proper care.</p>
<p>How Participants Benefit</p>	<p>Participants who gained knowledge on livestock topics may benefit in the following ways:</p> <ul style="list-style-type: none"> • Producers involved in the Show–Me–Select Heifer program gain knowledge on raising and marketing high-quality heifers. An increase in prices for heifers has been seen if they carry the Show-Me-Select tag. • Knowledge gained and implementation of forage/pasture management allows producers to reduce feed costs, improve pasture health, decrease synthetic fertilizer application and cost, therefore improving profitability. ◆ Youth gained knowledge on how to produce a high quality meat or milk product.
<p>How Does This Work Make Ste. Genevieve County and Missouri Better?</p>	<p>Livestock production education programs teach management practices that can lead to a reduction of input costs and increased profitability. Profits made on the farm are likely to be re-invested in local agribusinesses. Increased livestock management tends to result in the production of higher quality meat or milk product, therefore increasing the value of that product. Educating youth about proper animal handling and welfare practices at an early age increases the chance they will continue utilizing the proper techniques as adults.</p>

Livestock Education

Livestock Specialist
Kendra Graham

Missouri Show-Me Quality

Assurance Training

Thirty youth raised food animal projects for the Ste. Genevieve County Fair in 2016. Food safety is a major concern for consumers, and the Show-Me Quality Assurance (SMQA) training is designed to teach young producers how to raise a safe, high-quality food product. Participants are required to complete three SMQA trainings throughout their 4-H career to exhibit as 4-Hers at many fairs and complete their 4-H food animal project. They acquire knowledge in nutrition, safety, housing, production, food chain, and record keeping. Educating youth about proper animal handling and welfare practices at an early age increases the chance they will continue utilizing the proper techniques as adults. Increased animal health, meat quality and producer awareness have been impacts of the SMQA trainings.

Show-Me-Select Heifer program

The Show-Me-Select Heifer program aids producers in raising and marketing high-quality heifers. Local veterinarians, regional livestock specialists and producers work together to create a reliable source of replacement heifers in terms of genetics and management. Producers are also given the opportunity to market their heifers in various sales across the state of Missouri. Four producers enrolled 140 heifers in the Show-Me-Select Heifer program in Ste. Genevieve County with 58 heifers selling in the local Show-Me-Select sales. The economic impact of the 58 heifers selling in the sales is estimated to be \$53,726 for the local community.

2016 Regional Grazing Schools

The Missouri Regional Grazing Schools are educational programs taught by the Natural Resource Conservation Service (NRCS) and University of Missouri Extension (MU). The goals of the program include educating producers in the art and science of grazing management, transferring new technology in grassland management to producers, and qualify producers for state cost-share programs through the soil and water conservation district.

Eight producers from Ste. Genevieve County attended the local grazing schools held at Mineral Area College in 2016. According to surveys filled out by participants:

- 94% of participants plan to adopt rotational grazing and 25% already use a form of the practice.
- 100% plan to extend the grazing season
- 94% plan to better manage soil fertility
- 100% plan to interseed legumes or plant warm-season forages.
- 89% of participants plan to feed less harvested forages.

As a result of all of the grazing schools held throughout Missouri since 1997, there have been 1.65 million acres put into grazing systems, 15,550 producers that have attended the schools and \$83.6 million added to the Missouri economy.

Around the County

In 2016, Ste. Genevieve County had one Century Farm owned by Larry and Kathleen Schmidt. They own the farm originally purchased by Larry's grandfather, Lawrence Schmidt in 1913 for the sum of \$6,850 according to an old newspaper clipping. The farm then passed to his parents in 1921. Larry and Kathleen added 52 acres to the original 185 in 1972. The farm is diversified with the row crop ground rented out. The rest is pasture and hay for the cow/calf operation.

The Gegg family was selected as the Ste. Genevieve County Missouri Farm Family by the Ste. Genevieve County Extension Council and local Farm Bureau. The family includes husband Rodney, wife Kacey and children Maddie, Leo and Emma Gegg.

Each year, the fair sets aside a day to recognize farm families from across the state who are active in their communities, involved in agriculture, and participate in local outreach and extension programs such as 4-H or FFA.

The Gegg family operates a row crop and cow/calf operation, contributing to the local agricultural economy.

This was the first year in its 58-year history that all 114 counties participated by nominating a family.

Mizzou Alternative Breaks is a program where Mizzou partners with local Extension offices to send students out to the counties to work on community service projects. In November, Ste. Genevieve hosted 10 students. They raked leaves in Memorial Cemetery, hung Christmas lights at the Welcome Center, did yard clean-up at the Guibourd-Valle House, and helped with a 5K run sponsored by the Community Center.

Community Development

Community Development Specialist
Tiffany Williams-Cobleigh

Community Garden

The Ste. Genevieve Community Garden began as an idea from a community member who wanted to grow fresh vegetables but didn't have the yard space for a garden. The Ste. Genevieve resident reached out to several Master Gardeners and the local MU Extension office for help to get the garden started. Six plots were planted in 2016 with room to grow. We hope this formerly bare and unused piece of land will eventually be a city park available to all community members, gardeners, and those who just enjoy an outdoor spot to sit, picnic, and appreciate nature. The Ste. Genevieve Master Gardeners and Extension Council members donate grant money and resources for improvements to the area, seed, and plants.

Business Development

Business Development Specialist
Pablo Arroyo

MU Extension’s Business Development Program each year provides research-based education and technical assistance to thousands of Missouri business owners to help them improve the competitiveness and success of their small businesses.

A University of Missouri Extension Partner

<p>East Central Missouri Impact</p>	<p>As a result of assistance provided by the MU Extension Business Development program in the assigned East Central Region in FY2016, businesses generated the following economic impact:</p> <ul style="list-style-type: none"> ◆ Generated sales increases of \$7,630,639 ◆ Secured loans and acquired assets for \$1,575,600 ◆ Received government contract awards of \$169,148 ◆ Created or retained 298 jobs ◆ Provided training events for 687 individuals and companies ◆ An additional 109 residents and businesses received start-up and management counseling, training, and other assistance.
<p>Total Statewide Impact</p>	<p>Overall, the University of Missouri Extension Business Development Programs (BDP) assisted companies and businesses across the state by supporting business growth, sustainability, enhancing the creation of new businesses entities and fostering job creation and job retention. The total impact for all businesses assisted by the BDP was:</p> <ul style="list-style-type: none"> ◆ 1751 new jobs ◆ 1811 retained jobs ◆ 226 new businesses ◆ \$157,306,766 of increased sales ◆ \$341,603,813 in awarded government contracts ◆ \$110,351,258 in loans and investments received ◆ \$944,865 in awarded research grants ◆ \$10,312,296 in export awards received ◆ 2,723 clients/companies receiving assistance or counseling ◆ 7,617 participants attending training events and seminars

Family Financial Education

Stephanie Cunningham
Family Financial Specialist

When you support MU Extension’s Financial Education Programs, participants spend and borrow responsibly, save more and gain control over their financial health. These behaviors benefit other community members by reducing predatory lending, reliance on public assistance programs, and crime. Please see below for the programs offered in 2016. **Across the four counties of Jefferson, Franklin, St. Francois County, and Ste. Genevieve County, and a few surrounding counties there were 274 participants/families reached. The programs held in Ste. Genevieve County are listed below.** Other possible future classes include: *Identity Theft, When Creditors are Predators, Small Steps to Health & Wealth, Your Farm Your Business Your Future, and more!*

Who Gets Grandma’s Yellow Pie Plate?

A program designed to help families distribute their non-titled property. Topics covered include determining what fair means, identifying objects to transfer, distribution options and consequences, and managing conflicts if they arise. ***Action Steps after attending the workshop: 90% of the participants will determine what objects are meaningful and why, 81% plan to share stories and meanings of special items with others, and 76% plan to initiate conversations with others about inheritance and personal possessions. Quotes from participants include: “Benefitted from input from other participants as well as class resources.” “Very good class, keep posting in the paper.”***

Making Money Count

This program focuses on strategies and techniques for using your money and other resources more effectively. Making Money Count addresses the need for financial management education. Making Money Count includes eight units: Making Decisions and Communicating About Money, Spending Plan, Credit, Consumer Skills and Contracts, Record Keeping and Taxes, Banking Services, Insurance, and Saving and Investing. The classes can be tailored for the specific audience.

I worked with the **Department of Health & Senior Services and St. Vincent de Paul** to train some of their staff on the Envelope Method of budgeting, how to track their spending, and develop a budget. I gave them budget folders that they can use when helping their clients. **We also worked with St. Vincent de Paul to provide 90 packets for a future mailing to their clients.** Quotes from the class include: ***“Good information and multiple handouts will be good to provide to clients.” “I think this tool will be very helpful for our clients.” “This was a good resource for our office to use for our clients.” “Budgeting is a very pertinent issue for our clients and you’ve assembled practical, easy to understand tools that anyone can benefit from.”***

Family Nutrition Education Programs

Judy Colligan
Nutrition Program Educator

The Family Nutrition Education Program (FNEP) brings the latest nutrition information to low-income Missourians. FNEP helps clients achieve life long health and fitness. Paraprofessional nutrition educators work with clients individually and in groups in their communities and schools. Clients gain skills that pave the way for nutrition well-being and health.

Number of Ste. Genevieve County Learners in 2016	429 youth and 355 adults received nutrition education at Ste. Genevieve and Bloomsdale Elementary.
What Did They Learn?	<p>In addition to the numbers, Judy Colligan shared these success stories demonstrating local impact:</p> <p><i>Last week, I taught a Germ Lesson to first graders at Ste. Genevieve Elementary School. Today, I visited for our second session and was surprised to hear so many children share their "Germ Buster" stories. Many were proud to tell me about how well they were doing washing their hands and remembering to use soap. One teacher even reported that she heard singing in the bathroom as they washed up their hands, after learning that singing the 'ABC' song takes 20 seconds, the same amount of time you need to scrub your hands when washing.</i></p>
Total Statewide Impact	<ul style="list-style-type: none"> ◆ Participants in FNP become more aware of nutrition, make healthier meal and snack choices, eat breakfast more often, are more willing to try new foods, increase their physical activity and in general make healthier food choices. ◆ Those who practice healthy eating and activity behaviors are more likely to enjoy a high quality of life as an adult and into old age. A healthy labor force is critical to attracting and keeping jobs in Missouri. In addition, this important programming effort serves to reduce healthcare costs over the participant’s lifetime, saving taxpayers money in reduced public healthcare benefits and insurance premiums.

Nutrition and Health Education

Mary Schroefer
Nutrition & Health Education Specialist

Team Nutrition – Ste. Genevieve County

Today, the large majority (i.e., 76%) of children ages 3 to 5 participate in some form of non-parental child care on a weekly basis. As such, these settings have great potential to favorably influence children's health and development.

In 2016, 33 child care providers attended 4 Child Care Wellness Workshops and received 66 clock hours of training on the following topics:

- ◆ Taking Care of You
- ◆ Eating Well/ Grow It, Try It, Like It
- ◆ Making the ABCs and 123s More Active
- ◆ Dealing with Food Allergies in the Child Care Setting

All workshops were approved by the state and counted toward providers' annually required 12 contact hours of training. MU Extension offers these workshops as part of MO SNAP-Ed's "Policy, Systems, and Environments" approach to nutrition education.

When you support MU Extension's child care wellness programming, you help participants increase their knowledge and self-confidence about child nutrition, physical activity, and living a healthy lifestyle. With research-based knowledge and practical techniques, children, parents and child care center staff will benefit by preventing or postponing the onset of disease, by healthier eating and active living.

DID YOU KNOW?

- ◆ **MU Extension's Fire and Rescue Training Institute** provides comprehensive continuing professional education and training to Missouri's fire service and emergency response personnel. Courses prepare firefighters for medical emergencies, hazardous materials response, and disaster preparedness and mitigation, as well as fires. There were 55 FRTI students in 2016 from Ste. Genevieve County. <http://www.mufrti.org>
- ◆ **The MU Conference Office** provides high-quality, professional, full-service meeting management for a variety of noncredit educational programs, such as conferences, workshops, seminars and symposia. Whether a meeting is hosted on campus, in out-state Missouri or anywhere in the world, the office's professional staff provides assistance to create the best learning environment for participants. In FY 2016, 49 Ste. Genevieve county residents registered to attend MU Extension conferences for teacher education in math, science, and writing; crop management, and agricultural lending, as well as statewide youth leadership programs such as FCCLA and 4-H. <http://muconf.missouri.edu>
- ◆ **MU Nursing Outreach** Keeping Missouri nurses up to date with the knowledge and skills they need to effectively provide care and fully participate in the state's health care efforts is a primary goal for Nursing Outreach. Nursing Outreach serves a predominantly rural health care audience with high-quality, affordable continuing education programs using face-to-face, web-based, and online delivery methods. In 2016 there were 5 participants from Ste. Genevieve County. <http://nursingoutreach.missouri.edu>

Ste. Genevieve County MU Extension Center

Financial Report

Ste. Genevieve County Extension is funded through a three-way partnership between federal, state, and county government. Federal and state funding provided through the University of Missouri pay professional staff salaries, benefits, training costs, and part of the communication equipment used in the local office.

County funding provides the local Extension Center with office space, operation cost which includes secretary salary, benefits, mileage for staff, telephone, supplies, and other miscellaneous council costs for programming.

Extension Council receiving a donation from the Jaycee's Golf Tournament.

DID YOU KNOW?

You can direct your donation to a specific county as a gift to be used immediately or as an endowment contribution to support the county's efforts long term. Gifts are generally used within one to two years. Monies put into an endowment are left in the fund forever to earn interest; once the endowment is fully funded, the county extension office receives the earnings monthly—forever.

You can also direct your donation to a specific MU Extension program, such as your county's Master Gardener or 4-H program.
