# Your Panopto Primer

Panopto is an online video tool that allows you to get the most from your course videos.

Panopto Basics

When ready, this central icon will start your video.

From here, you can expand the size of your video to full-screen.

You can select this to speed up or slow down your video.

Selecting the diagonal upward right arrow will take you to the Panopto Video Viewer. Here you can access additional features such as video table of contents and search features, the ability to take notes and bookmark sections of the video, and scan the video to find particular slides.

Selecting this automatically displays captions for the video.

University of Missouri

To exit full screen

Exit full screen view by selecting the Esc (escape) key on your keyboard, or the icon in the lower right corner of your screen.

Additional features

Select the inverted "V" at the bottom center of your video to access additional features.

Table of Contents

Before example		0:30
After example		0:57
Missouri Farm Labor example, full day conference moved online.		2:25

Here, you can view and skip to video chapters, take notes, and search the video for key terms.
