

INFORMATION FOR STUDENTS

The 4-H Study of Positive Youth Development

A Research Study by University of Missouri Extension

About Our Study

- Researchers are conducting a study about how adolescents develop strengths, beliefs, and behaviors.
- This study will help to provide information on how to design and improve programs for youth.

What will I be asked?

- We are asking youth in 6th, 7th, 8th, 9th, 10th, and 11th grade to fill out a survey that has questions about your activities and behaviors.
- The survey will take about 30-40 minutes.
- You will be invited to take a total of 3 surveys over the next year. The first survey will be collected by April 30th and following surveys will be collected in the month of June and August.

Compensation

- Youth will be entered into a raffle each time they complete a survey. Each raffle will include one Apple AirPods with charging case, three Instamix cameras with a 20 pack of film, one \$25 Amazon gift card, and five \$50 Amazon gift cards.

Confidentiality

- All of your answers will be kept completely confidential. Your answers will not be shared with your school or youth program. Your participation is voluntary.

How can I be a part of the study?

- We will send you a link to an online survey after we get permission from your parent/guardian!

Thank you!! Your help is what makes our research possible!

Please email or call the research team if you have questions.
