Range Commands and Procedures

COMMAND	ACTION
<i>Before the competition:</i>	Step 1: Before a competition, the Range Officer will prepare the range for firing and, if competition officials hang targets, supervise the hanging of targets. Competitors should not move their equipment to the firing line until they are called to the firing point by the Range Officer.
"RELAY NUMBER ____, YOU MAY MOVE YOUR EQUIPMENT TO THE FIRING LINE"	Step 2: Before the Preparation Time starts, and after any preceding relay is finished, the CRO will call the competitors to their firing points. Only on command, can competitors remove their pistols from their boxes and handle their pistols. As competitors move to the firing line, check to be sure each competitor is present and on the correct firing point.
"RELAY NUMBER ____, GO FORWARD AND HANG YOUR TARGETS"	Step 2a, if required: After competitors move their equipment to the firing line and, if competitors are responsible for hanging their own targets, the Range Officer instructs competitors to go down range and hang targets.
"PREPARATION TIME BEGINS NOW"	Step 3: The Preparation Time is 5 minutes. During the Preparation Time the targets must be visible and facing the competitors. During the Preparation Time competitors may handle their pistols, dry fire, and carry out holding and aiming exercises on the firing line
"END OF PREPARATION TIME...STOP"	Step 4: At the end of the Preparation Time there must be a brief pause of approximately 30 seconds. (EST-Target Officer will Reset the targets for the sighting series)
"FOR THE SIGHTING SERIES, LOAD" <i>(or)</i> "FOR THE FIRST/NEXT MATCH SERIES LOAD"	Step 5: All competitors load within a time of 20 seconds

The red lights must be switched on or if turning targets are used, they must be turned to the edge-on position. After a delay of seven (7) sec. (+/-1.0 sec.) either the green lights will come on, or the target will be turned to face the competitor for 3 seconds. At the appearance of the green light, or when the targets begin to move to the face-on position, the competitors may raise and fire. After 3 seconds, the red light will come on, or the target will edge, and the 20 second load time for the next shot will begin; without an additional command. After firing, all competitors will reload

	and may rest pistols on the table with muzzles pointing downrange awaiting the next Attention command.
(If lights/turning targets are not used)	If lights, or turning targets are not available, the commands START and STOP may be used to begin and end the 3 second firing period.
"ATTENTION" (SHOTS 2-5)	Step 6b – 6e: After 20 seconds, the range officer will again give the ATTENTION command after which the procedures outlined in Step 6 above will be followed, until all 5 shots of the series have been fired.
"UNLOAD"	Step 7: After each 5 shot series, competitors are instructed to unload an insert their CBI's and make the line safe.

HUNTING SCENARIO/HUNTER DECISION MAKING

2022 HUNTING SCENARIO	<p>10 to 20 questions will be posted on the following scenario.</p> <p>You are 24 years old, from Oklahoma, and just out of college last spring. Your best friend 23, also from Oklahoma, just landed a new job in the Hitchcock County area of Nebraska. He will be moving there about two weeks before your planned hunt October 30th thru November 2nd. Your friend is off, so he plans on hunting/scouting areas on the 29th, to get a feel for some areas to start at the next day. The area that he will be located has several walk-in hunting locations. You both want to take advantage of being out of school and want to spend a long 4-day weekend from work by going upland bird hunting in Nebraska for a long-needed break. Besides going after Pheasant and Quail, you have heard that there are many Woodcocks in the lower lying areas that may still be around during your trip. You are not choosy and are excited about the possibility of any of the webless migratory birds that might still be in the area. You each have a German Shorthair and would like to get them plenty of field work. Both of you are looking forward to the time afield and will need to research to find out what you need to know to make this happen.</p> <p>The links to the Nebraska Game and Parks websites will allow both of you to research the Nebraska wildlife laws and opportunities for an enjoyable hunting experience.</p>

<p>TIME LIMITS</p>	<p>Event Officials will determine an appropriate time for the testing and will announce to the group prior to beginning the competition.</p> <p>Reading assistance will be provided during testing, upon request prior to event.</p>
<p>SHOOTING SKILLS</p> <p><i>Coaches/parents need to stay behind designated shooting lines during competition.</i></p>	<p>Archery (15 targets) – archery a “hit” will be the heart-lung vital area on a 3-D target. A “miss” will be any other shot. Maximum distance to target: Compound – 50 yards, Recurve – 35 yards.</p> <p>The course may not be previewed, scouted, or walked. No binoculars/range finders.</p> <p>Shotgun (15 targets) – clay targets will be scored as a “hit” or “miss”. Shooting stations will imitate various hunting scenarios. Contestants will not be able to view targets prior to shooting.</p> <p>Small Bore Rifle (15 targets) – a “hit” will be the heart-lung vital area on a 2-D animal target as noted in the examples exhibited at the contest. Maximum distance will be 80 yards. Participants may be expected to shoot in Prone, Kneeling or Standing positions.</p> <p>NO BINOCULARS OR RANGE FINDERS ARE ALLOWED BY CONTESTANTS. Parents or coaches may glass targets with binoculars but are NOT allowed to communicate with contestants.</p> <p>All shooting disciplines in the Hunting Skills contest will be at unmarked distances.</p>

SMALLBORE PISTOL EVENTS

The Youth Safety Handgun Act, as included in the Gun Control Act of 1968, puts restrictions on the use and possession of handguns by youth under 18 years of age. Youth participating in National 4-H Shooting Sports Invitational must, at all times, follow all provisions of this act. Therefore, event officials will require "the prior written consent of the juvenile's parent or guardian who is not prohibited by Federal, State, or local law from possessing a firearm." This written permission must be in possession of the youth – even if a parent/guardian is present. We suggest a simple statement, reduced to wallet size with the name of the youth, a parent's name, address, as well as their signature, and that of a witness and dates. The participant can laminate this card and keep it with the shooting kit or on their person. This document must be displayed at check-in. Failure to have this document will require the National Championships Committee to disqualify the shooter to avoid violation of federal law.

All smallbore pistols are required to use a Civilian Marksmanship Program (CMP) type CBI (Clear Barrel Indicator) when the handgun is uncased and not being fired. Cased pistols will be the last equipment to be brought to the range and the first to be removed from it.

All events are "single pistol" matches, meaning participants are to shoot the entire course of fire, with the same pistol. No pistol changes will be allowed between stages, and only one pistol per shooter is allowed on the line. Pistols may be replaced only if they are disabled or malfunctioning.

- **NO** cell phones, radios, or **other electronic communication devices may be used by competitors** or others on or in the immediate vicinity of competitive ranges during active competition.

Additional information:

Coaching: Coaches will be back behind the shooting area at a distance, as designated by the CRO, and will not be allowed to contact the shooters during any of the firing periods including during sighter shots. If the shooter wishes to consult with the coach during the firing or sighting period, they may ask the range officer to be excused and step back off the line where they can meet with their coach and have discreet discussion where it does not interfere with other shooters, but the clock will still be running. The coach may not initiate the consultation. Between stages (movement to a different position in silhouette or during position changes, target changes), the coach may come to the shooting area if needed and may go down range with the shooter when changing targets except for silhouette. *(Only the scorers and resetters will go down range to reset silhouette targets.)* In most cases Range Officials will have all the targets in place so individuals will only go down range at the end of shooting. Coaches may not be in the shooting area during the preparation or shooting periods. In the CMP match, participants will go from the initial sighter period to firing for record very quickly so there will be no break in between. **Please note during registration how your shooters should be paired for silhouette.** The team will be split into pairs with one pair shooting, the other pair will be down the line scoring and resetting targets for another team. The pair shooting will spot for each other (one fires their shots, and one spots). They switch roles when the first shooter has completed firing on that animal. The next relay, the pairs will switch places. If a team only has 3 shooters, Officials will **attempt** to spread the team across relays, so one of the team members can spot for the third shooter.
