Consumerism

Decision Making & Online Shopping

This page is for the Leader

Supplies Needed:

Situation and Option card, 4-H judging cards, Judging Scale Chart, and pencils.

Suggested Age: 14 & up

Reasons:

- D** would be the best option because Brittany would not be breaking the rules and her parents could help her see if there are hidden fees or if it is a good offer.

- C** would be the next best option because Brittany would still be consulting her parents; however, it probably is not important enough to interrupt her dad's work.

- A** would be the next option because Brittany would be breaking the rules and using her parents' credit card without permission.

- B** would be the worst because Brittany would be breaking the rules, getting her friend in trouble and using someone else's parents' credit card. They could both get in trouble for that.

Decision Making & Online Shopping

Situation:

Brittany wants to download some cell phone ring tones on-line. She is not allowed to use the Internet when her parents are not home. There is a special that if she does it today, she gets an extra ring tone for free. Her parents are not home yet but she really wants the ring tones. What could she do?

Options:

A. Download the ring tones using her parents' credit card number. She will explain later.

B. She asks a friend of hers to download the ring tones at the friend's house and use the friend's parents' credit card. Brittany will pay her back later.

C. She cannot wait until her parents get home from work, so she calls her dad at work to ask about it.

D. She waits until her parents get home from work to discuss it with them.
