## Breads

### Measuring Dry Ingredients

#### Supplies Needed

Four, sugar and additional dry ingredient, measuring cups, spoon or scoop and knife.

#### Situation

You have been asked to bake rolls for the recognition banquet. The recipe calls for flour, sugar and another dry ingredient.

#### Task

Demonstrate how you measure the dry ingredients for the recipe.

#### Directions

Correctly fill 1 cup flour into a measuring cup,  $\frac{1}{2}$  cup sugar into a measuring cup and  $\frac{1}{4}$  cup of another dry ingredient into a measuring cup.
