## Foods

### Measuring Liquid Ingredients

#### Supplies Needed

Liquid measuring cup, measuring spoons. Water and oil.

#### Situation

You want to make your grandmother's favorite muffin recipe that calls for liquid ingredients of water and oil.

#### Task

Demonstrate how you would measure water and oil for the recipe.

#### Directions

Correctly fill a liquid measuring cup to the  $\frac{1}{2}$  cup water level.

Correctly measure 1 teaspoon (tsp.) of oil.
