**\*Heel on Leash:** To include ONE 270 left turn (Rally sign #10) or right turn (sign #9); ONE 360 left circle (#12) or right circle (#11); and a left about turn (#29). These Rally exercises will be called by the judge during the heeling – signs are not required, but may be used.

**\*\* Stand for Examination – Call Dog:** Judge will ask the handler **BEFORE** the exercise begins whether the handler will be calling the dog to heel or to front after the examination. The dog must perform in the manner chosen. Judge uses 2 hands over head, shoulders, back and hips only.

**\*\*\* Drop on Recall:** May use command **and/or** signal.

# GUIDELINES FOR JUDGING THE WASHINGTON STATE 4-H DOG OBEDIENCE PROGRAM ADVANCED NOVICE CLASS

This class has been developed as an intermediary class between the Novice Obedience Class and the Graduate Novice Obedience Class. This is **solely a 4-H class**, not found or used in the AKC or similar registries. It is to be judged along the same guidelines as all of the other 4-H obedience classes as pertaining to handling, allowable commands and/or signals, position of dog, etc. The following explanations are provided as a guide to the non-regular exercises found in this class.

## Heel on Leash

This exercise has the addition of **three** Rally Novice obedience exercises – a 270o Right turn (sign #9) **or** Left turn (sign #10); a 360o Right circle (sign #11) **or** Left circle (sign #12); and a Left About Turn (sign #29) – to be included in the heeling pattern. These exercises can be reviewed on the AKC website ([www.akc.org](http://www.akc.org)) and are illustrated on the Rally Novice signs #9, #10, #11, #12 and #29. The judge will have the option of using the Rally signs in the ring **or** calling them along with the regular heeling commands. It is recommended that enough space be given for the 270o turn and 360o circle if the dog and handler are moving parallel to the ring gate. The Rally exercises will be executed as obedience exercises – no additional commands, signals or praise, **except** command and/or signal may be given on the Left About Turn. The position of the dog should be judged as in all other aspects of the heeling exercise, along with proper length of leash. The judge will have a ring steward walk the heeling pattern for the exhibitors' benefit before the class begins.

## Stand for Exam – Call Dog

**Before** beginning this exercise, the judge will ask the handler which way the dog will be called – either to front or to heel. A dog that fronts must also finish and will be scored on the sit in front and the finish. After the handler states their preference, the judge will note it and ask the handler to stand their dog and leave when ready. The handler may use their hands to position the dog.

After standing the dog, the handler will then leave the dog and go 8 - 10' away, and turning to face the dog. The judge will then examine the dog with 2 hands over the head, shoulders, back and hips but not underneath or down the legs or tail.

After the exam, the judge will ask the handler to call their dog. The handler will either call the dog to front, or to heel as is done in the Utility Moving Stand exercise. The dog must return to the handler in the pre-stated manner – either to the front of the handler or going directly to heel position. A handler that chooses to have the dog front will then finish their dog on the judge's order.

## Drop on Recall

This exercise will be judged as in the Graduate Novice Obedience Class. For the drop, hand signal **and/or** voice command may be used.

## Group Stays

The Long Sit will be done as in the Novice Obedience Class, with handlers **across the ring**, except that the time will be for **3 minutes**, instead of one. For the Long Down, the handlers will **leave the ring** for a period of **3 minutes**, as in the Graduate Novice Obedience Class.

---

## CLARIFICATION ON STANDS FOR GRADUATE OPEN AND VETERANS/MODIFIED

### Graduate Open:

#### Moving Stand and Examination

This moving Stand will be done as in Utility except that the handler may pause or hesitate when giving the command and/or signal to stand.

### Veterans/Modified:

#### Moving Stand and Examination

This moving Stand comes from the Utility class and will be done as in Utility.

#### Long Stand (One minute handler goes 15')

Do as a Group if more than one entry.

Judge touches head, shoulders, and back with one hand. Handler returns to dog.

\***Heel on Leash:** To include ONE 270 left turn (Rally sign #10) or right turn (sign #9); ONE 360 left circle (#12) or right circle (#11); and a left about turn (#29). These Rally exercises will be called by the judge during the heeling – signs are not required, but may be used.  
 \*\* **Stand for Examination – Call Dog:** Judge will ask the handler **BEFORE** the exercise begins whether the handler will be calling the dog to heel or to front after the examination. The dog must perform in the manner chosen. Judge uses 2 hands over head, shoulders, back and hips only. **THE TEAM WILL HAVE TO DECIDE WHICH WAY THEY WILL CALL DOGS IN ON THE MOVING STAND TO BE TOGETHER ON THAT PART.**  
 \*\*\* **Drop on Recall:** May use command **and/or** signal.

## EXPLANATION OF DEDUCTIONS

The purpose of this scoresheet is for the Judge to use it as a tool for scoring the exhibit against a standard of performance, and also for the exhibitor to see how they performed and learn what areas need improvement.

Some explanations of deductions are listed below for your learning convenience, however members, parents and leaders are encouraged to get current copies of the AKC obedience regulations or read them online at [www.AKC.org](http://www.AKC.org)

Judges may judge and mark any occurrences that happen in the ring, whether they are listed or spelled out in the regulations or not, as needed. There are many gray areas that judges may make decisions on.

**Although the AKC rule book is used as a guide, Judges should keep in mind when judging 4-H members the appropriate development stage and expectations from the 4-H member's age group.**

**Scoring - Minor penalty - 1/2 point to 2-1/2 points    Substantial penalty - 3 points or more**

Some of the faults listed on the scoresheet are self explanatory. If any of the following is marked on the front of the score sheet, this is what might have happened:

**Heeling exercises- Heel Position.** The heel position applies whether the dog is sitting, standing, lying down, or moving at heel. The dog should be at the handler's left side straight in line with the direction the handler is facing. The area from the dog's head to shoulder is to be in line with the handler's left hip. The dog should be close to, but not crowding, it's handler so that the handler has freedom of motion at all times.

**Brisk, briskly** - keenly alive, alert, energetic. Handler needs to walk briskly.

**Constant tugging on leash or Guiding** - Tugging or keeping the leash up tight without clip hanging down and sufficient length of leash hanging down.

**Continually adapts pace to dog** - If dog changes pace on it's own, handler slows or speeds up to dog's pace.

**Crooked or Poor Sit** - a dog that is not straight in line with the direction the handler is facing. May be at side or in front.

**Crowding** - a dog so close to handler as to interfere with handler's freedom of motion.

**Gently** - with kindness, without harshness or roughness.

**Guiding gently by the collar** - control of the dog by holding any part of the collar with minimal pressure on the dog's neck.

**Forging** - Dog moving ahead of heel position.

**Hands on leash** - The leash may be held in either hand or both hands, but the hands must be held in a natural position.

**Hands off leash** - (1) When the handler is in motion, the arms and hands must move naturally at the sides

(2) The left hand must be held against the front of the body, centered in the area of the waist, with the left forearm carried against the body.

The hands and arms may be adjusted during the fast portion of an exercise.

Substantial deduction if the hands and arms are not carried as stated above.

**Hands - Recall or position any time a dog returns to the front of handler** - In any exercise that the dog returns to sit in front, the handler's arms and hands must hang naturally at the sides until the dog has sat in front.

**Heeling wide** - Dog moving out far from side of handler.

**Lagging** - Dog moving behind heel position .

**Natural** - not artificial; free of affectation; what is customarily expected in the home or public places

**No change of pace** - Handler and dog do not noticeably accelerate on the fast or decelerate on the slow.

**No Sits** - on the score sheet may refer to in front of or at the side of handler

**Unmanageable** - Dog is not under control and/or not responding to handler.

**Unqualified Heeling** - Dog may not be continually working, or heels on the wrong side of the handler for a substantial part of the exercise.

### Stand for Exam

**Resentment** - resistance, unwillingness

**Moves away** - Dog moved all four feet away from the place where the dog was left.

### Recall

**Directly** - immediately, without deviation or hesitation, in a straight line

**Drop completely** - a down position that would be acceptable for a Long Down exercise

**Prompt response** - without hesitation, immediate, quick

### Long sit or down

**Forcing** - Physically putting the dog into position, by touching dog or by collar.

**Did not remain in place** - Dog lifts rear end off ground on sit, as opposed to shifting weight in place.

On Down, dog moves a complete body's length forward, or sideways, from where it was left.

**Dog placed so it interferes with adjacent dog** - Dog placed at angle making it closer to and faces another dog.

**Misbehavior:** Any display of fear or nervousness by the dog or any uncontrolled behavior such as snapping, barking, or running away from its handler.
