

# Skill-a-Thon

## Electricity

### Electrical Wiring

#### Supplies Needed

Extension cord, knife, screwdriver, extension cord hardware (ends male and female).

#### Situation

You pick up an extension cord and find the electrical wiring is loose.

#### Task

To rewire the extension cord so that it is safe for use.

#### Directions

Rewire the extension cord. Have the cord approved by the leader. Then check to see if it works properly.
