

Skill-a-Thon

Robotics

Create a Robot

Supplies Needed

Robotics kits, batteries, tools to build robots

Situation

You have been asked by the president of your club to do a robotics project demonstration at the club meeting.

Task

Using the parts provided, create a device that can be controlled to go

- forward and backward
- Turn left and right.

Directions

- Assemble the device
- Demonstrate and explain the device
- Disassemble and return parts to appropriate location
