

Skill-a-Thon

Small Engines

Change a Spark Plug

Supplies Needed

Lawn mower, spark plug, spark plug wrench, feeler gauge, cloths to use for rags.

Situation

You are starting a summer business mowing lawns in your neighborhood. Your lawn mower is not running properly. You suspect the spark plug may be the problem.

Task

Remove the spark plug. Clean, space, and replace it properly.

Directions

Unscrew the spark plug from the lawn mower.

Clean, space, and replace the spark plug properly.
