

Skill-a-Thon

Woodworking

Measuring a Board

Supplies Needed

Board scraps (large enough for the task), square, and a pencil.

Situation

You are making a bird house for Mother's Day. The plans call for the bottom board to be 4 inches square.

Task

Measure and mark a 4 inch square.

Note: This task can be changed to make it more or less challenging for youth.

Directions

Measure and mark a 4 inch square on the board.

Make sure it is square on all sides.
