

# New Born Calf Protocol

## At Birth:

- 1) Dip naval with 7% iodine. Wash out dipper every 3<sup>rd</sup> calf.
- 2) Place calf in Heater.
- 3) Give **SCOUR VACCINE**.
- 4) Give **SELENIUM**.
- 5) **CLOSTRIDIUM ANTITOXIN**.
- 6) Take ear notch for BVD-PI testing.

## 1/2 to 1 hour after Birth:

- 1) The calf should receive 1 gallon of colostrum if from a mature Johne's negative cow.
- 2) If cow a first calf heifer or Johne's positive, use saved colostrum or **COLOSTRUM REPLACEMENT**.
